"THE WHITE DESERT"

Here is the opening chapter of The Lima News' new novel, a powerful story of the bleak desert of snow and ice atop the Continental Divide where Winter rules in May and where a man with a past works out his own salvation. It abounds in romance and adventure. Complete in two weeks.

By COURTNEY RILEY COOPER

CHAPTER I

It was early afternoon and down in the hollow which shielded the scrambling little town of Dominion the air was warm and lazy with the friendliness of May.

A long, sleek, yellow racer came to a stop beside the gas tank and wheeled into silence. A young man rose from his almost flat position in the low-slung driver's seat, stretched himself and stared upward toward the glaring white of Mount Taluchen, the highest peak of the continental backbone, frowning in the coldness of snows that never departed.

"Gas!"

"Yep!" The young man stretched again. "Fill up the tank—and better give me half a gallon of oil."

Young he was, almost boyish; yet counterbalancing this was a seriousness of expression that almost approached somberness. The eyes were dark with something that approached sorrow, the lips had a tightness about them which gave evidence of the pressure of suffering, all forming an expression which seemed to come upon him unawares. But in a flash it was gone, and boyish again, he had turned, laughing, to survey the gas tender.

"Barry Houston, huh? Must be a new make, I—"

"Camouflage," laughed the young man again. "That's my name."

"Oh, is it?" and the villageer chuckled with him. "You've got th' plate right where th' name of a car is plastered usually, and it plum fooled me. Where you headed for?"

"Over Hazard."

"Ain't that, are you?"

"I hope not. It's May, isn't it?"

"Look up there." The old man pointed to the splashes of white, thousands of feet above. "It may be spring down here, boy, but it's January up there. They've only been two cars over Hazard since November and they come thru last week. Both of 'em was old stagers. Both of 'em come thru here lookin' like icicles—'a sweating t' beat four o' a kind." A thrill shot thru Barry Houston. His life had been that of the smooth spaces, of the easy ascent of well-

paved grades, of streets and comforts and of luxuries. The very raggedness of the thing before him lured him and drew him on.

"They've got me," came quietly. "I'm—I'm going to make the try!"

The gears meshed. A stream of smoke from the new oil spat out for a second. Then, roaring and chortling with the beginning of battle, the machine swept away toward the slight turn that indicated the scraggly end of the little town of Dominion, and the beginning of the first grade.

"A six per cent grade if it's an inch!" he murmured. "And this is only the beginning."

He settled more firmly in his seat and gripped hard at the steering wheel. Gradually, the severity of the grade had increased to ten, to twelve and in short pitches to even eighteen and twenty per cent!

A stop, while the red, hissing water splattered from the radiator cock, and the lifted hood gave the machine a chance to cool before replenishment came from the murky, discolored stream of melted snow water. Panting and light-headed from the altitude, Barry leaned against the machine for a moment; something touched his face and melted there—snow!

An hour—and three more after that—a last final, clattering journey, and Barry leaped from the seat with something akin to enthusiasm.

Thru the swirling snow which sifted past the glare of his headlights, he could discern a sign which told him he had reached the summit, that he now stood at the literal top of the world.

From now on he could progress with the knowledge that his engine at least need labor no longer. But the dangers! Barry knew that they had only begun. The descent would be as steep as the climb he had just made.

Again he started, the brake bands squeaking and protesting, the machine sloughing dangerously as now and again its sheer weight forced it forward at dangerous speeds.

He grasped desperately for the emergency brake. For five minutes

3 MEN SHOT IN GUN BATTLE

Officials Clash With Night Riders in California

San Francisco, April 24.—(Associated Press)—A gun battle in California today resulted in the death of three men and the wounding of several others. The battle took place in the city of San Francisco, where a group of night riders were engaged in a gun battle with police officers.

As a result of the gun battle, three men were killed and several others were wounded. The police officers were also wounded in the battle.

The police officers were engaged in a gun battle with the night riders. The battle was very fierce and resulted in the death of three men and the wounding of several others.

DAY-MINSKY DAMAGE SUIT, OUTGROWTH OF COLLISION OF AUTOS, BEGUN MONDAY

Trial of a damage suit brought by Thomas Day, 749 Ritchie-ave, against Sam Minsky, 412 W. Haller-st, commenced before a jury in common pleas court Monday. Day alleges that his automobile was wrecked June 27, 1920, by the negligence of Albert Minsky, son of the defendant.

Testimony introduced by Day shows that he was driving in Haller-st, on the date of the accident and Albert Minsky backed out from the curb without warning. His car was damaged in the crash. Damages amounting to \$338.86 is demanded.

The case is brought before Judge Fred C. Becker on an appeal from Judge J. H. Hamilton, who heard the case at the time he was a justice of the peace.

Among the witnesses for Day are: Patrolman Charles Billestein; Frank Eberle, former sergeant-defective and Purchasing Agent Harry N. Osgood.

The jury composed of the following was sworn in to try the case at 9:45 a. m. Lee Blank, Louis Arner, Walter Green, Walter Cullen, John P. Winkler, Lisle Curry, L. D. Gray, George Shoup, Sam Fletcher, H. F. Neuffer, J. H. Baker, Leroy Counts.

DEBTS INCREASED

Situation in Ohio Communities is Described

COLUMBUS.—(United Press)—C. A. Dyer, secretary of the Ohio Home Protection League, in a statement here declared the public was "burning a candle at both ends" because of increased taxes at one end and mounting debts at the other.

Counties in 1920 had debts of \$77,198,116, paid off \$9,696,369 of it, created \$21,169,640 of additional brand new debt, so that the present debt is \$88,571,387, an increase of nearly 15 per cent, he said.

Townships in 1920 had debts of \$12,190,764, and added \$415,160 to it the following year.

Villages in 1920 had debts of \$31,855,778, paid off \$3,499,914 of it, created \$7,645,590 in new debts, an increase of 18 per cent.

SHE WILL LIVE IN RUMANIA

Mrs. Donald Fairchild Bigelow, formerly Miss Honor Morissey of St. Paul, whose marriage to the American vice consul to Bucharest, Rumania, took place recently in Oxford, England.

OPERA DIRECTOR QUILTS JOB

Mary Garden Resigns Chicago Position—May Go Abroad

CHICAGO.—(Associated Press)—Mary Garden, director of the Chicago Grand Opera Company, resigned the position in a statement made public last night. Followers here drew from it, however, the idea that she would continue with the organization as a singer.

The Miss Garden announced nothing definite concerning her steps in the immediate future, it was expected that she would leave for New York today, ostensibly for a conference with her concert manager, Charles Wagner, who is reported to have offered her \$250,000 for a tour next season. Later she may go to Europe for a sojourn.

Miss Garden's withdrawal from the leadership of this city's opera was quite as dramatic as her entry. She spoke spiritedly of Americanism and American ideas in opera, maintaining that her "fighting blood" urged her to stay but her reason bade her go.

She addressed a statement to Chicago which led opera lovers to believe she would remain with the organization as an artist.

During the year Miss Garden has been director, the organization's losses have been placed at almost \$1,000,000, the largest in its history. This, as in the case of previous deficits, was borne by Mr. and Mrs. Harold F. McCormick. In explaining this year's deficits, Miss Garden said it was due to the fact that Mr. McCormick had told her to make his last year as backer of the company, a gala season.

Miss Garden received no salary as director, her only compensation being the fee she received as an artist, which was placed at about \$2,500 a performance.

GIRLS DIE IN FIRE

Two Burn to Death in Home at Youngstown

YOUNGSTOWN.—(Associated Press)—Margaret Vargo, 7, and Helen Vargo, 2, were burned to death this morning in a fire which destroyed their home just inside the city limits. The parents had built a fire and then had gone but to milk the cows.

A four-year-old child who accompanied them soon pointed out that the house was afire. Unable to enter the door, the father broke a window and tried to get in, but was beaten back by the flames, badly cut and burned. A passing autoist, who rushed to give his name, rescued a five-year-old child from the house.

NEW TRIAL ASKED IN PIENING CASE

Slayer of Priest May Not be Sentenced For Weeks

MOTION IS FILED MONDAY

Counsel For Murderer May Appeal to Higher Court

WAPAKONETA.—(Special)—Final sentence in the case of Charles Piening, Minister house trader, found guilty of the murder of Rev. Richard Schwietermann, pastor of St. Augustine Catholic church, in Minster, may not be pronounced for several weeks. New trial is being sought.

Under the law, conforming to the verdict of the jury, Piening will be sentenced to electrocution by Judge F. C. Layton.

Disposition of the case is halted by the filing of a motion for a new trial, by R. E. Layton, counsel for the prisoner, Monday afternoon.

Layton sets up that the verdict of the jury is not sustained by the evidence; that it is against the weight of the evidence adduced; that it is contrary to law; that the court erred in admitting evidence that should not have been accepted; that evidence was rejected that she had been admitted; that new evidence has been discovered in behalf of the accused since the verdict was given; that the court committed error in its charge to the jury.

This motion will be for argument at any time fixed within two weeks and should the court rule against granting a new trial, the defense has 40 days within which to carry the case to the court of appeals. Layton indicated Monday that such a step would be taken if a new trial is refused in common pleas court.

The verdict of the jury, carrying the death penalty for the priest's slayer, was admittedly a surprise, but a survey of public opinion indicates that it is generally satisfactory. It was believed that the two women on the jury would oppose death penalty.

It is expected that Prosecuting Attorney Karl Timmermeister and his assistant, L. C. Brodbeck, of Marys, will bitterly contest the motion for a new trial and ask that the death penalty be imposed at the earliest possible date. First degree murder verdict was a surprise to the attorneys representing the state. Brodbeck stated that he expected a second degree murder verdict.

LINEMAN KILLED BY LIVE WIRE

St. Marys Man Dies Soon After Receiving Shock

ST. MARYS.—(Special)—Floyd Skinner, 30, lineman, employed as trouble-shooter for the Western Ohio railroad, received injuries from a grounded wire which resulted in his death a short time later, while working on lines near Minster, Monday. Skinner died while being removed to his home here.

Skinner was working in company with two linemen employed by the Minster telephone company. He came in contact with a grounded high-tension wire while working among a network of wires on a pole ten feet above the ground.

Companion rushed to his side and found that he was fatally injured. He was unconscious when rescued. It is said that 6,600 volts passed thru his body.

Besides the widow, who resides here, he is survived by his parents and a sister, all of whom reside in St. Marys.

\$15 FOR DRUNKENNESS

M. R. Clayton, 37, of McPherson, drew \$15 in criminal court Monday when he pleaded guilty to drunkenness. He was arrested Sunday on W. North-st.

TWO DIE IN COLLISION

CINCINNATI.—Death of Everett R. Minkus, 35, brought toll of street car-autobile collision of Saturday night to two. William M. Greer died soon after crash.

"DO NOT TRUST GERMANY, RUSSIA," IS WARNING

(By DAVID R. FRANCIS)

America's Last Ambassador to Russia; Former Chief of United States Mission Which Recognized Republic of Russia; Also Former Mayor of St. Louis, Governor of Missouri, and Secretary of the Interior

ST. LOUIS.—(Special).—The signing of a treaty between Germany and Russia was no surprise to me.

My book, "Russia From the American Embassy," shows that Lenin was a German agent and was sent to Russia for the purpose of demoralizing the Russian army and withdrawing Russia from the World War.

Many times, while ambassador, I recommended that the Bolshevik Soviet government be deposed because it was an ally of the Central Empires, with which the entente was at war.

Furthermore I predicted that if Germany got control of Rus-

si, she would organize Russia's man power and utilize Russia's immense resources to begin another war within ten years.

I would not trust Germany or the Bolshevik Soviet government, as I feel they would not respect their agreements if it was to their interest to violate them.

I am glad the American government is not participating in the Genoa conference. Not that I am opposed to the United States aiding in reconstructing Europe economically and finally.

But I think it would be a mistake for the United States to recognize even as a de facto government the Russian Bolshevik Soviet regime, or do anything to strengthen that government—beside which the horrors of the French revolution, compared with Bolshevik excesses, pale into moderation.

LESS THAN 25 PER CENT OF TAXPAYERS HAVE FILED RETURNS, AUDITOR SAYS

Less than 25 per cent of the taxpayers of Allen-co have made personal tax returns, assessors on duty at the court house say.

But six days remain for returns to be filled out, in order to secure the exemption allowance of \$100. Assessors say they will be pushed to the limit to care for the eleventh hour rush.

Returns are extremely slow in coming in, declared C. R. Phillips, county auditor. "Fewer persons from the entire city of Lima have filed than there are taxpayers" in some wards."

Many taxpayers have gone to unnecessary trouble and expense to have their return made out and sworn to before a notary. A fee is usually collected, often as much as \$1 being paid for the service. Any assessor according to Auditor Phillips, will certify the return free of charge.

BAKER LOVE CASE TRIANGULAR?

Friends Say Allister McCormick Has Rival

FIRST SUITOR IS SILENT

Family Wants to Avoid Publicity, He Declares

(BY WEBB MILES)—Allister McCormick today broke his silence regarding the fifth postponement of his marriage to Mary Landis Baker.

He explained that he and Mary, whose adventures around the outskirts of Montmartre and matrimony have caught Paris' fancy, and are the subject of editorial comment in French newspapers, are acting as are to avoid publicity.

Mrs. Baker, the Chicago heiress' mother, wishes them to keep out of the newspapers, McCormick said. Therefore, they cannot tell any one of their plans, or why they don't get married.

Friends, however, say there is another element. Harry Channon, of Chicago, they declare, is running Allister McCormick "off his feet" in a race for Contrary Mary's hand.

Channon and Miss Baker are constantly together here. Sometimes Allister McCormick makes a third on these parties.

"My lips are sealed," McCormick declared to the United Press today. "Mrs. Baker requested me not to talk. She wants to avoid publicity, so I cannot explain. Perhaps in a month's time, I may have something to say."

"I cannot say whether Channon wants to marry Mary. I must not talk."

C. B. LANDIS DEAD

Brother of Judge Landis Dies at Asheville, N. C.

ASHEVILLE, N. C.—(Associated Press)—Charles B. Landis, former member of congress from Indiana and for a number of years an official of the Dupont Powder Company, died early today at a local hospital. He came here a week ago from Chicago for his health.

Judge Kansas M. Landis, his brother, was enroute to his bedside when death came.

Mr. Landis was a graduate of Wabash College and for four years was editor of the Logansport (Indiana) Journal. He was a member of the 55th to 61st congress from 1897 to 1909.

BORN IN OHIO

INDIANAPOLIS.—Charles Beary Landis, former congressman and Indiana newspaper man, was born July 9, 1858, at Millville, Butler co, Ohio. He was the elder brother of former Judge K. M. Landis and former Congressman Frederick K. Landis.

The Landis family moved to Logansport, Ind., while the boys were small.

WIFE IMPRISONS INNOCENT MATE

Ohioan Pardoned After Serving 6 Years of Life Term

CONVICTED OF ASSAULT

Accused by Daughter of Criminal Attack

COLUMBUS.—(Associated Press)—Governor Davis today pardoned Carl Papenfuss, of Lucas-co, who had served six years of a life sentence in the Ohio penitentiary, having been convicted of the charge of rape on the testimony of his fifteen-year-old daughter. Evidence presented to Governor Davis proved the man to be innocent.

In pardoning Papenfuss, who is 62 years old, Governor Davis said he felt only sorry that the "grave harm done in such a miscarriage of justice can never be wholly undone."

COERCED BY MOTHER

The daughter on whose testimony the father was convicted, made affidavit that her statements of her father's guilt had been made under coercion of her mother who has since died and who, she now charges, threatened to put her in an institution unless she accused her father, and afterwards held her to secrecy with the threat she would be sent to prison if she revealed the truth.

Another daughter also made affidavit that her mother had threatened her also with bodily harm unless she made a similar charge against her father.

PARDON RECOMMENDED

Papenfuss' pardon was recommended by Common Pleas Judge Byron F. Ritchie who sentenced him, Attorney John C. D'Aiton who prosecuted him, the state board of pardon and parole; Welfare Director Macayal, Warden Thomas of the penitentiary and a long list of Wabash railroad employees with whom Papenfuss had worked for 25 years.

At the time of conviction, Judge Ritchie expressed doubt as to Papenfuss' guilt, and allowed Attorney John W. Raab who defended him, extra compensation to make further investigation of the case. It was thru Attorney Raab's investigation, assisted by Superintendent G. W. C. Perry of the pardon and parole board, that his innocence finally was established.

Papenfuss has maintained all the while that his conviction was the result of a conspiracy instigated by his wife.

TRIAL OF WOMAN POSTPONED

Report on Sanity of Mrs. Lillian Raizen Awaited

NEW YORK.—(Associated Press)—Trial of Mrs. Lillian Raizen, charged with the murder of Dr. Abraham Gluckstein, in his Brooklyn office, has been indefinitely postponed, pending the report of a commission which has been examining her sanity. District Attorney Ruston announced today.

This case follows close on the heels of the trial of Miss Olivia M. P. Stone, graduate nurse, who recently was acquitted of a charge of murdering Ellis G. Kinkead, former corporation counsel of Cincinnati, in Brooklyn last fall.

The cases have points of similarity.

In both cases, the defendants have told a tale of betrayal at the hands of the man they killed. In both cases a defense of insanity was made or indicated. In both cases a triangle existed.

A colimate of Miss Stone's in the Raymond-st jail, Mrs. Raizen followed closely every move in the Kinkead case, and at night the two women would sit up late chatting over details of the trial.

Another point at which the cases crossed trails came shortly after the acquittal of Miss Stone, when Mrs. Anna Gluckstein, the physician's widow, leaped to her death from a window in her home.

SPLIT AT GENOA THREATENED

Paris Ideas Must Prevail, Poincare's Ultimatum

FEARS GERMANY, RUSSIA

Balks at Concession to These Countries

PAR LE LUC, France.—(United Press)—"If France cannot make her ideas prevail at Genoa, she will cease to collaborate," Premier Poincare, speaking here today, declared.

The French premier declared he still maintained towards Genoa the ideals he had expressed in the chamber of deputies. Should M. Barthou and his colleagues be unable to enforce there at Genoa, France would greatly regret the necessity of summoning its delegation home, Poincare said.

FRENCH IDEA OF SITUATION

The French delegation can only remain at Genoa on condition that no concessions are made to Russia and Germany, he said.

Speaking before a gathering of the general council of the Meuse, Poincare said:

"The Russo-German treaty consecrates a rapprochement which will become a direct menace to Poland and indirectly to France."

"It is apparent, the premier said, that the attitude of Russia and Germany creates a political situation, which may perhaps overthrow the equilibrium of Europe."

SERIOUS PROBLEM

"Whatever happens at Genoa", Poincare said, "the allies must examine the new fact created by the Russo-German treaty as it touches the future of Europe and the conservation of peace."

The treaty is the most formidable problem encountered by the allies since the armistice. It cannot be solved by simple economic formulas or conferences.

"France hopes it will be solved with the accord of all the allies." The premier declared that unless Germany accepts the demands of the reparations commission by May 31, the allies have the right to take "necessary measures." He said he hoped that if this became necessary the allies would take them "in accord."

However, the treaty gives France the right to act independently. "I hope we can maintain accord with our allies," Poincare said. "But we will defend France's rights. We will not drop any arms the treaty of Versailles gave us."

LLOYD GEORGE OPTIMISTIC

GENOA.—(United Press)—Lloyd George believes a series of crises that have arisen at Genoa to be at an end.

The British premier, it was learned, hopes to be able to return to London by the end of the week.

Three of the sub-divisions of the economic parity will have completed their work by that time.

The economic and transport commissions are putting the finishing touches on their reports, following issuance of that of the finance commission. The recommendations of the finance commission were similar to those of the financial conference at Brussels ten years ago.

Interest at Genoa centers in the work of the political commission, fourth of the parity's sub-divisions, which is dealing with questions of Russia's debts and recognition of Russia.

The French delegation today entertained the British delegation at luncheon and it was believed to be a "love feast" to mark the end of quarrels between representatives of the two nations.

Lloyd George's threat, made Saturday, to expose the French as the trouble-makers of Genoa, had no little effect upon the attitude of Barthou's delegation.

ONLY OPTIMIST

(BY H. N. RICKER)

GENOA (Special).—Lloyd George has patched up peace with the Germans.

They tried to wreck his conference, but he has shown the lengths to which he is willing to go to keep the Genoa parity intact at least long enough to get together with the Russians.

The Germans are once more in official good standing—having accepted the allies' demand that they withdraw from the commission discussing the Russian question.

... their punishment for violating the conference of the allies was slap on the wrist. They got what they wanted a separate and advantageous treaty with Russia, which potentially is a threat to the rest of Europe, in a military as well as an economic way. And the allies seem helpless to deliver a counter-blow.

ALLIES ARE HAMPERED

GENOA, by double-crossing the allies, also made it much more difficult for the allies to deal with the Russians. If the Germans had not made a secret Russian treaty the allies and the Russians probably would have reached an agreement by this time.

Difficulties now are greatly increased, altho Lloyd George insists he has great confidence that an agreement will be reached.

The worst result of the German-Russian incident so far as this conference is concerned is that it practically precludes accomplishing an economic settlement.

Most, if not all of the economic, financial and transportation ques-

ELIMINATE 'DEAD MAN'S CROSSING'

Plans of Highway Department Affect Allen-co Road

WILL NOT DELAY PAVING

District Engineer and Surveyor Inspect Route

Elimination of "Dead Man's Crossing," the scene of a score of tragedies on the Dixie highway between Beaverdam and Bluffton, is contemplated by the State Highway department, before the road is paved.

The section of the proposed highway where it crosses and recrosses the Western Ohio and L. E. & W. tracks, a few miles south of Bluffton, was inspected Monday by Surveyor Walter R. Toy and District Engineer George Clements.

SURVEYS ARE MADE
Surveys are being made to determine how the dangerous crossing can be eliminated. Change in the course of the road will not delay the construction of the pavement for this year, Toy said.

"About a half mile section will be left out," he said, "until the crossing matter is settled."

The most practical plan, Clements said, is to run under the steam line tracks and go between the two lines for a short distance and then cut back thru.

A slight elevation of the Lake Erie track will permit doing this, at a low expense.

To carry this plan into effect, however, two stumbling blocks must be removed.

Land lying between the steam and electric line tracks is in litigation. It may be some time before the case is settled and a clear title given. Contention proceedings cannot be started now.

OPPOSITION APPEARS
Plans for using this land is also opposed by the railroad company, because without some definite understanding with the traction system, they must stand two thirds of the expense.

Just what will be done, Toy and Clements could not state. The dangerous crossing, however, they say must be eliminated, to satisfy state and federal authorities.

FESS OPTIMISTIC ON CAMPAIGN

Would Beat Brown 2 to 1, He Declares Here

"There is perfect harmony between the administration and myself regarding my candidacy for the Republican nomination for U. S. Senator," Representative Simeon D. Fess said Monday in an interview at the Hotel Norval.

"I do not believe that Walter F. Brown will really get into the senatorial fight, but if he does, I will beat him two-to-one at the primaries," Fess said.

"I stayed out of the race two years ago with the express understanding that I would be a candidate at this election. I intend to prosecute my campaign when it is not necessary for me to be in Washington," Fess said.

Fess is making a flying trip thru central and western Ohio this week. "Very few of my speeches are political," he said. "I'm just renewing acquaintances."

A second trip thru the state will be made just before the primary election and is expected to be wholly political. While in Lima Fess spoke at the Trinity M. E. church Sunday afternoon and before the Rotary Club Monday noon.

BRIEF FILED IN FIGHT AGAINST DISCONTINUING ELECTRIC LINE SERVICE

A brief was filed with the public utilities commission in Columbus Monday against abandonment of the Lima-Defiance branch of the Ohio Electric Railway. R. R. Trubey is representing the protestants.

The brief declares the branch was not a losing proposition and produced figures to show that 5,000 persons paid fare from Lima to Defiance last year and said "we presume as many rode from Defiance to Lima."

The brief declared the protestants are not seeking a reduction of rates, but that "we believe the present revenues provide sufficient funds to justify continuance of service."

"The cost of restoring the company's properties to serviceable condition was estimated by the protestants as being several thousand dollars below the company's estimate."

LIMA BOYS, SOON TO BE PRIESTS, ARE GIVEN HOLY ORDERS IN CINCINNATI

William Killoran, son of Mr. and Mrs. James Killoran, 801 Richle-av., and Gerald Dunn, son of Mrs. Mary Dunn, 119 W. McKibben-st., were given the holy order of deacons and Aditus Lyons, 925 N. West-st., the order of sub-deacon, by Archbishop Moeller, at services held in Cincinnati Sunday.

The three Lima young men will be ordained priests by Archbishop Moeller, Cincinnati, following their graduation from Mount St. Marys seminary, Cincinnati, in June.

Messrs. Killoran and Dunn represent St. Rose Catholic parish and Lyons is a member of St. Gerard's parish.

Fresh Pork Sausage, our own make, lb., 16c at Buchler's, 126 E. High.

ICE BOX
The refrigerator should be cleaned and given an airing once a week. For effective airing the ice box should be allowed to stand open and "bake" over night, with the kitchen doors open.

SCIENTIST SEES RADIO AS PRIVATE AS TELEPHONE

ROCHESTER — (Special)
Talking by radio may become as private as talking by line telephone, Earl C. Karker, instructor at the University of Rochester, says. It is possible. He has already worked out a method of guiding short wave lengths.

Scientists are trying further to give radio waves a sense of direction that will keep them from radiating out of the air. If they succeed, private radio conversation will be possible.

STILL INEFFICIENT
"Radio transmission," says Karker, "even at best is still a very inefficient system of communication because it lacks directional properties. Radiation occurs practically in all directions."

"Someone soon will undoubtedly evolve a means of directing these waves in a beam similar to the effect produced by using a reflector with a source of light. By this means, the entire energy of the light may be directed without great decrease in intensity in a given direction for a considerable distance."

"Radio transmission by such a device will be accomplished with much less expenditure of energy."

"Antennae are directional to some extent. But nothing much has yet been done in the way of collecting radio waves. Of course, the magnitude of the reflector would have to be enormous if we keep on using the same wave lengths that we use now."

SUGGESTS REFLECTOR
"But may it not become possible by the use of a reflector to produce sufficient radiation in a given direction at a much shorter wavelength?"

"One can now reflect short radio waves by merely placing a metallic reflector behind them. I have done it."

"The waves are sent out in parallel beams, caught by a similar reflector and brought to a focus with a corresponding increase in energy at the focal point."

"Sounds easy," adds Karker. "The large transmitting and receiving stations may find that it works out just as easy as it sounds."

BISHOP STITCH TO VISIT LIMA

Confirmation on May 14—Communion Class at St. John's

Fifty-two children, ranging around the age of seven years, were members of the first communion class at St. John's Catholic church, Sunday. An imposing spectacle was presented as the girls of the class, attired in white and the boys in new spring outfits, presented themselves at the altar.

A large class will be confirmed at St. John's church on Sunday, May 14, at 3 p. m., when Bishop Samuel Stritch, Toledo, will be present. The Rev. Father Leonard Plumans, pastor of St. John's church, announces the exact number in the class has not yet been determined.

Bishop Stritch will celebrate mass and confirm a large class at St. Rose Catholic church at 9 a. m. May 14. The first communion class of St. Rose was presented on Christmas morning.

The bishop will go to St. Gerard's church at 7:30 o'clock of the evening of his visit here, where he will confirm a large class.

Children of St. Gerard's parish will make their first communion on Sunday morning, May 14. The Rev. Father James Clark, pastor, announces the communion class will consist of 40 or 45 children.

O. E. SUNDAY EXCURSION TO TOLEDO DRAWS ONLY SMALL NUMBER OF PATRONS

Excursion business was light on the Ohio Electric Railroad Sunday, to Toledo.

Announcement made Monday at the general offices of the Ohio Electric, Market-st. and Central-av., is to the effect that 23 tickets were sold during the day.

True, to its promise, the Ohio Electric operated to Lima the last car, leaving Toledo at 11:05 p. m., and which is scheduled during the week to run only as far as Deshler, although but three passengers were accommodated.

With the advent of summer, it is expected every car leaving Lima and points for 20 miles north, will be packed with excursionists on Sunday. It is the purpose of the company to give service and the car will be operated thru to Lima, each Sunday evening, according to arrangement by Harry C. Mason, superintendent of transportation.

A slight change of schedule will be noticeable next Sunday, when at 4 a. m. of that day, all cars will be operated on eastern time, and continue thruout the summer.

TABER WILL SPEAK TO KIWANIS CLUB TUESDAY

The Lima Kiwanis club will hear in address by L. J. Taber, director of the department of agriculture of Ohio, at its weekly noon-day luncheon Tuesday at the Argonne hotel.

Taber will have for his subject, "The Farmer and the Business Man." For many years he was engaged as a state lecturer at farmers' institutes over Ohio.

W. Beall, director of the Social Service campaign, will be given an opportunity to present needs at the social service bureau to Kiwanis.

FOUR FACE TRAFFIC COURT AND ARE FINED

Instead of anchoring his flivver alongside the curb, G. Griffith, West Cairo, picked out a nice place on the sidewalk in N. West-st. and used it for parking, police said.

Griffith admitted "was so in criminal court Monday, and was taxed the customary \$1, and warned."

J. Bowersock, 117 S. West-st., ran the blockade inside a safety zone, cops said. He also drew \$1.

A. W. Pomeroy, Y. M. C. A., was going too many knots per hour, \$10.

C. D. Hall, Gomer, was cruising without the necessary display of licenses, \$5.

EARL C. KARKER

MILLER SENTENCE IS DEFERRED

Lima Writers of Anonymous Letters Scored by Judge Killis

TOLEDO — (Special)—"If there are any more cowards in Lima who want to give me information on this case against Alex Miller and who insist on signing their abusive letters anonymously, I would welcome concrete facts," Federal Judge Killis said from the bench, Monday, in continuing the case against Miller, a Lima junk dealer.

Charged with having received stolen property, in connection with the theft of pigiron from interstate shipments in Lima, Miller was to have been sentenced Monday. He was given 30 days in which to adjust his business affairs. The time expired, Monday.

"This court still believes the 'fence' is as bad as the thief. This matter is continued for further information. I wish that Lima would be advised of what I said," Judge Killis added in his statement.

L. E. Moninger, Harry Bert and Albert Victory were sentenced recently to 12 months each in the Atlanta federal prison and Howard Van Horn to eight months in the Canton workhouse, for theft of pigiron from the L. E. & W. Railroad in Lima, and selling the iron to Miller.

17 BELIEVED LOST IN SHIPWRECK

Steamer Operating in Lake Superior Is Missing

SAULT STE MARIE, Mich. — (Associated Press)—The steamer Lampden of the Canadian lighthouse service, carrying a crew of about 17 men, is believed to have sunk south-east of Michipicoten Island, in Lake Superior, during the storm of last week.

The Lampden, carrying lighthouse keepers and supplies for Michipicoten and Caribou Islands left here last Saturday morning. Nothing has been heard from her since and the lights on the two islands have not been lighted.

Wreckage was sighted about 25 miles southeast of Michipicoten Island by the steamers Collingwood and Valerian, which passed thru the American locks here last night. A pilot house similar to that of the Lampden was seen floating about but no name was seen. The exact number aboard the little craft is not known.

She was in command of Alex A. Brown of Oshawa, Ontario.

SMALL ON TRIAL

Governor of Illinois Faces Embezzlement Charges

WABEGAN, Minn. — (Associated Press)—Governor Len Small went on trial before Judge Claire G. Edwards in Lakewood circuit court at 11:20 o'clock this morning, charged with conspiracy to embezzle state funds.

With the last preliminary disposition of 12 men were called to the box and selection of a jury to try the governor, who was indicted July 20, of last year, got under way.

DAUGHTER ARRIVES
Mr. and Mrs. Earl Grossweiler, 551 Delphos-av., announce the birth of a daughter at St. Rita's hospital, Monday.

KERMAN DIVORCE SUIT IS UNDER ADVISEMENT

Divorce action brought by Mrs. Blanche Kerman, of Plymouth, against Eugene Kerman, Lima banker has been taken under advisement by Judge Fred C. Beahm.

Temperamental differences, the wife says, made their married life incompatible, and filled their home with unhappiness. There are two children, Thelma 9, and John, 7.

Kerman did not file a cross-petition.

STATIC, BUGABOO OF RADIO—DUNCAN TELLS WHAT IT IS

(BY R. L. DUNCAN)

Director, Radio Institute of America
What is this "static," bugaboo of all radio enthusiasts, about which we hear so much grumbling?

After a respite during the winter, it is again beginning to break in and interfere with wireless transmission and reception. Despite the efforts of all experts, nothing much has been done to curb this interference.

It is hard to buck nature, and static, or atmospherics, is the name given to electric waves sent out by water vapor.

WATER IN AIR
During the warm spring and summer months, water evaporates very quickly. The warm air covering the earth's surface becomes laden with water vapor.

Because this warm air is light, it rises to the cooler regions above. There, owing to the change in temperature, it is condensed and formed into small particles of water.

Since there is always some electrification of the air, these small drops of water are charged with electricity. Drawn together by the billions, they form into clouds. When these become heavier than air, they burst and descend upon the earth in rain.

LIGHTNING
Each of these particles constituting the cloud retains its electrical charge. There may be several

DUBLIN IN GRIP OF STRIKE

Irish Workers Quit in Protest Against Civil War

LONDON. — (United Press)—Dublin was held in the grip of a complete general strike today.

The Irish capital's industries and public services were paralyzed. Irish workers are demonstrating their protest against civil war devastating the country.

Rebel extremists of the Irish republican army, against whose depredations the general strike chiefly was aimed, refused to recognize it or participate.

Clashes were feared if the insurgents attempted to break the strike. Communication with Dublin was crippled today, the workers having included telegraph and telephone services and steamship and railroad lines in their walkout. Cable companies announced they would refuse messages.

Even racing, the Irishman's sport, with which he consoles himself on such days, was halted. Golfing was forbidden. Any form of public sport was under the same restrictions.

The Westminster Gazette's correspondent declared the insurgent leaders and free state army commanders already have reached agreement as to a truce.

FUND INCREASES

Contributions Received Monday For Welfare Work

Social service fund was increased Monday by cash contributions and gifts of paper and rubber tires to the Boy Scouts, J. W. Beall, chairman of the committee in charge, announced.

It is urged that all persons having old papers and rubber tires, which they have discarded, call Groommaster E. F. Statismith and he will have members of one of the troops call and remove it.

A check from W. L. Parmenter for \$75 was received Monday. Other contributions were: Clonolan Club, \$12; Rabboni White Shrine, \$10, and St. Paul's Lutheran Sunday school, \$50.

Greater interest is being seen in the second week of the campaign for funds to carry along the work of the bureau. More wealthy people are sending in checks and those of small means are doing all they can, Beall said.

Contributions from a large number of Sunday schools and churches, which took up special collections Sunday, will be received Tuesday, it was said at social service headquarters.

KERMAN DIVORCE SUIT IS UNDER ADVISEMENT

Divorce action brought by Mrs. Blanche Kerman, of Plymouth, against Eugene Kerman, Lima banker has been taken under advisement by Judge Fred C. Beahm.

Temperamental differences, the wife says, made their married life incompatible, and filled their home with unhappiness. There are two children, Thelma 9, and John, 7.

Kerman did not file a cross-petition.

BRADSHAW TO RESIGN

Louis C. Bradshaw, secretary of the Lima Y. M. C. A., for nearly two years past, will tender his resignation at the next meeting of the board of directors, May 16, to be come effective June 15.

Report of his intention to leave the Lima position was confirmed Monday by Bradshaw, but he had no statement to make concerning his future.

"There is nothing definite about my future activities," Bradshaw said.

NEGLECT AND CRUELTY ALLEGATIONS MADE IN DIVORCE SUITS FILED

Two divorce suits in which Lima wives are the complainants, were instituted in common pleas court Monday. Neglect and cruelty are allegations in both suits.

When she married Charles N. Morgret, 187 W. Eighth, a year ago, she says in her petition that consent was wrung from her by promise of a good home. No relatives were to some buzzing round Morgret promised her, she claims.

They went to his parents' home, she says. "Another case of mother-in-law," the wife says.

She left and is now earning her own living, because she alleges Morgret will not.

Her petition asks the right to resume her former name, Grace Ashbaugh, and that sufficient alimony be awarded her.

Alleging that Elmer Bierlein struck and beat her, Hazel Bierlein, filed suit in common pleas court Monday. They have been married five years.

EUROPE MUST PAY DEBTS—FESS

Senatorial Candidate Speaks Before Lima Rotary Club

"European nations may repudiate their domestic debts but they will not repudiate their foreign debts," Representative Simeon D. Fess, told members of the Rotary club Monday noon at the Hotel Norval.

"America is not in favor of any of the foreign nations' debts to us being canceled and will see to it that no more loans are made to foreign governments until their expenses get less than their income," he continued.

"Loans should be made to business houses in Europe, however, with the understanding that the money is to be used for the purchasing of raw materials here for shipment to Europe," he added.

"Limitation of arms offers one way for the foreign nations to cut down their expenses and to place themselves on a sound financial basis," he concluded.

Officers for the coming year were elected Monday. They are Edward Godron, president; L. A. Larsen, first vice-president; Ralph Austin, secretary-treasurer; J. Clem Thompson, sergeant-at-arms; George Bayly, M. K. Tate, Fred Dorries, Charles Clark and Jesse Carpenter, directors.

Eskimo Pies will always be the leading seller in chocolate coated ice cream bars because they are the original and the best. Ask for them at your dealer.

MORGAN'S ABILITY IS DOUBTED

His Part on World Finance Board to be Watched

MONEY SITUATION FORECAST

Forbes Gives His Views on Securities Market

(BY B. C. FORBES)

NEW YORK—(Special)—J. P. Morgan has astonished a good many people by accepting the European invitation to join the international committee to consider the feasibility of floating a foreign loan or loans to help Germany to meet her financial obligations to the allies. Mr. Morgan rarely shoulders such tasks personally. Henry P. Davison formerly filled such roles. Thomas W. Lamont usually does now. At present, however, Mr. Morgan is in Europe wrestling with the preparation, in conjunction with British and French interests, of a solution of the Mexican foreign debt problem. The figure Mr. Morgan cuts will be watched with intense interest, as a great many people seriously doubt whether he has inherited any of the Napoleonic capabilities of his father.

I'm probably wrong, because so many who ought to be high up authorities think differently. But if I were running a corporation that figured on needing financing within the next twelve months I would shoot out the securities now. The time to sell is when others want to buy. There is a very good market for new security offerings at present. A good many prospective borrowers are holding off on the theory that money will become much cheaper later in the year and that, consequently, it will be possible to raise capital on distinctly easier terms. This reasoning may prove correct.

Then, again, the improvement in business may become pronounced enough to absorb much larger quantities of money and credit thereby preventing money from becoming very much cheaper. Also, the appetite for new issues may not be quite as keen six months or a year from now as it is today. A million or ten millions of dollars actually raised would seem preferable to merely the prospect of raising a million or ten millions.

The refusal of the United States government to participate officially in the Geneva conference was sharply criticized by leading American financiers. They reasoned that politics would predominate over economics. Events are proving that they were right. By and by, however, American financiers will favor a sitting down at the European council table—when they feel certain their views and recommendations will predominate. That time promises to be not so very far off.

A famous character in fiction sought to palliate the irregular arrival of a child by explaining that "it is such a little thing." When Henry Ford championed the issuance of paper currency without gold reserve behind it but merely the water power of the Tennessee river, he probably reasoned—if he did any reasoning whatsoever on the subject—that it didn't matter. But here is what that sort of proposal logically leads to: here is a letter received from Boonsboro, Maryland: "Ford got his money idea from me and he is right and you are wrong. Every bond and savings stamp or government certificate should be cancelled here and abroad, paper money issued instead, and a burden of more than two hundred billion dollars of debt removed from the world. Even our Panama Canal bonds could be called in and cancelled and paper money issued instead, as was done by Lincoln after the Civil war. More than \$300,000,000 of this currency is still in circulation and it has and is still saving us vast sums in interest on bonds, which were issued for graft and not for efficiency and patriotism.

"Save billions!" Germany can easily bring her paper money to par in her own land by canceling a few of the gamblers who are shaving it and keeping them in prison without bail, just as we could do here if any one shaved one of our dollar bills."

Why not make this last suggestion to Russia? There the governing powers make a specialty of throwing people into prison. If their trillions and trillions of paper rubles could be made worth anything by jailing a few thousands people, Lenin and Trotsky and their cohorts certainly would not hesitate to do it.

The trouble is, however, it can't be done.

I ran across Thomas E. Wilson this week and immediately tried to

"pump" him about the Armour-Wilson-Cudahy merger talk. "I'd rather have your views on the report than give you mine," Mr. Wilson countered, smiling.

In view of the very severe losses which all packers have sustained during the last eighteen months, it would not be astonishing should efforts be made to bring about some such combination as the one under discussion. "Needs must when the devil drives." Necessity has often proved a wonderful pathfinder. It may possibly prove so in this instance.

Certainly an organization having J. Ogden Armour at its head to guide, particularly its financial destinies, and Thomas E. Wilson as its president, to direct its business operations, would have a preeminently efficient pair at its helm. Mr. Armour has been described as "the ablest banker among the packers," while Mr. Wilson has been described as "the ablest packer among the bankers."

A two-volume biography of E. H. Harriman is ready for issuance. Here's an interesting sidelight on Harriman culled from the preface written by the author George Kennerman: "Mr. Harriman was temperamentally disinclined to engage in personal disputes and controversies. He did not like the newspaper notoriety that accompanied quarrels carried on publicly, and he often refrained from making replies to injurious charges, even when he had a perfect and convincing defense. Then, too, he regarded public controversy as a waste of time. The work in which he happened at the moment to be engaged seemed to him more important than anything else and he would not allow himself to be diverted from it by harsh criticism of his methods, or even by unjustified attacks upon his character and personal integrity. He always thought, as Abraham Lincoln once said, that 'a man has not time enough to spend half his life in quarrels.'"

"Mr. Harriman was not indifferent to public opinion, nor did he ignore attacks because he was unable to meet them. He simply did not care to spend in controversy time that he could employ more profitably in work. When an intimate friend once said to him that he certainly would be misjudged if he did not defend himself with the weapons that lay at his hand, he replied: "The people always find out what's what, in the end, and I can wait. I need all my time and energy to do things."

As a matter of fact, Mr. Harriman changed this attitude a year or two before he died. He then became most accessible to the financial reporters and did his best to become affable with them. I am told, too, that he enjoyed this experience and regretted having been for so long inaccessible and taciturn. Most men prefer the good will to the ill will of their fellowmen when twilight begins to close in on them.

There's a suggestion in this for a good many of our Napoleons of Finance and Marshalls of Industry who while still in their prime, feel that they are so mighty and so busy that they don't give a rap about what the public says or thinks of them. Wake up in time, Mr. High-and-Mighty. (Copyright, 1922)

U. S. INSURANCE IS DEMANDED

Taking Business Over by Government, Socialist Aim

ALSO RAIL NATIONALIZATION

Program to be Presented at Convention Next Saturday

CLEVELAND — (Associated Press) — Proposals for "immediate and drastic remedies" for what were described as "political evils and industrial derangements" said to have been left as a legacy of the World War, will be presented at the annual convention of the Socialist Party here April 29, according to the preliminary agenda issued by Otto Branstetter of Chicago, executive secretary.

The taking over by the government of the business of insurance and extension of it to include provision for unemployment, measures to remedy "the collapse of agriculture," gradual socialization of the great basic industries, and recognition of Russia form part of a proposed Congressional program.

PROVISION FOR JOBLESS

The measure relative to insurance is worded as follows: "The Socialist Party insists that the business of insurance should be taken over by the government, and should be extended to include adequate provision for unemployment, accident, sickness, invalidity and old age, without contributing on the part of the workers."

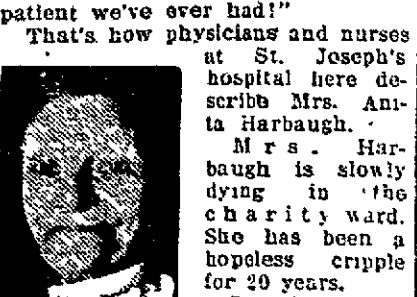

Proposals to remedy "the collapse of agriculture" specify that "all farm land not cultivated by owners shall be taxed its full rental value; that the Federal government shall acquire other lands by reclamation, purchase, taxation, condemnation or otherwise, such land to be organized into socially operated farms, with modern machinery; that ample credits be extended to farmers at low rates of interest; that a comprehensive plan of elimination of farm tenantry be worked out with owned and operated farms where the relation of employer and employed shall disappear; that socially owned cold storage plants be established and rural wage workers be encouraged to organize unions of farm laborers."

Socialization of industry as proposed would begin with the railroads, mines and steel industry, and others of the larger industries, to be extended to other large industries as rapidly as possible.

CAESARIAN OPERATION Mrs. L. E. Van Gunten, 837 Fairview-av., was subjected to a Caesarian operation at City hospital, Monday. Mrs. Van Gunten is said to be on the way to recovery. The daughter born is a healthy, little girl and hospital attendants say, bids fair to be a hearty youngster.

FORGETS PAIN IN CHEERING OTHERS

MEMPHIS—"The most cheerful patient we've ever had!" That's how physicians and nurses at St. Joseph's hospital here describe Mrs. Anita Harbaugh.

Mrs. Harbaugh is slowly dying in the charity ward. She has been a hopeless cripple for 20 years.

In that time she's never taken a drug to alleviate pain. She's forgotten her own pain by cheering others.

Twenty years ago Mrs. Harbaugh was the pretty, graceful, bespangled aerial queen of one of the world's greatest circuses.

KILLED BY FALL

TOLEDO—Max Regar, Cleveland merchant, killed when he fell from a tenth story window of hotel where he was said to have been sleeping, seeking relief from asthma.

SCOUTS UNTANGLED JAM OF AUTOS

Prove Aid to Sightseers in Cridersville Storm Belt

Boy Scouts from Lima and Wapakoneta were called into service to function as traffic cops when more than 2,000 motorists coming for a

radius of 50 miles, visited the cyclone belt between Cridersville and Hume, Sunday.

The narrow country lanes were choked with cars. No one with authority was about, to straighten the tangle.

Telephone calls were made to Sheriff Baxter, and he ordered Deputy Ike Hall to the scene. Hall cleared a tangle of cars at Cridersville.

He remained for the Boy Scouts, however, to cope with the worst of the situation near Hume. Scouts were also needed near Yoder, where another bad jam blocked the highway for several hours. Congestion seemed to start at

points where some motorists left cars standing in the road and wandered off to look at wrecked buildings. Motorists kept arriving. No one could move cars which the owners tried to turn, added to the tangle.

Scouts may be placed on all roads in the storm belt next Sunday, E. F. Stahlman, scout executive states.

DAMAGE SUIT DISMISSED

Damage suit filed by N. Clifford Binkley, against H. C. Davis, was dismissed by Justice E. M. Botkin Monday, together with a counter-suit filed by Davis. The case originated from an automobile accident at Metcalf and Spring-sts.

Use 20 Times Send the coupon for the 10-Day Tube. See and feel the delightful effects. There will be NO COST

Not Her Fault But why not keep teeth white?

Does your dentist ever show you the film-coats on your teeth? His vigorous polishing is largely done to remove them.

Millions find that these film-coats form despite the daily brushing. But now there's a way to combat that film, and we offer you a test.

What film does

Film starts as a viscous coat. You can feel it now. It clings to teeth, enters crevices and stays.

It absorbs stains, making the teeth look dingy. It forms the basis of tartar. Thus the luster of the teeth is kept dimmed.

Film holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Germs breed in film, and they, with tartar, are the chief cause of pyorrhea.

Thus most tooth troubles are now traced to film. They are due to the fact that old ways of brushing do not effectively combat it.

The new-day way

Dental science, after long research, has found two ways to fight film. Careful tests have amply proved them. Now leading dentists, here and abroad, advise their daily use.

Pepsodent

THE NEW-DAY DENTIFRICE

A scientific film combatant, combined with two other modern requisites. Now advised for daily use by leading dentists everywhere. Supplied by druggists in large tubes.

Five benefits

Pepsodent brings other desired effects. It multiplies the salivary flow. It multiplies the starch digestant in the saliva. That is to digest the starch deposits which may otherwise cling and form acids. It multiplies the alkalinity of the saliva. That is Nature's agent to neutralize acids, the cause of tooth decay.

In these natural and effective ways, Pepsodent combats twice daily the great enemies of teeth.

Watch it act

The results are quick and apparent. You can see and feel them.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

The test will be a revelation. It has brought to millions a new era in teeth cleaning. Learn what it means to you.

Ten-Day Tube Free

BURGLARY CHARGE FACED BY TWO

Alleged Robbers of Walker Store
Are Captured

WIEMAN, GEHRING TAKEN

Officer Laughlin Makes Arrest
After Hard Run

Mike Laughlin celebrated his return to the Lima police force by capturing an alleged bold, bad burglar early Monday and getting the goods on a second, he asserts, so that it was an easy matter for plainclothesmen to snare him later.

The men are Alva Wieman, 27, of 732 Harrison-st., and Harold Gehring, 31, of 780 S. Main-st. They are accused of breaking into the cigar store of J. A. Walker, 811 S. Main-st., Monday at 1:25 a. m. and taking cigars, several dollars in small change, candy and other small articles. The place was turned topsy-turvy, police say.

Laughlin saw two men hurrying along the street while he was patrolling his beat and started after them. They peered over their shoulders suspiciously and set a furious pace, finally breaking into a run. The policeman pounced on them and pulled down Wieman, but Gehring, he declared, got away. Fearing the prostitute man might also escape, Laughlin permitted the fleeing one to go and landed Wieman to jail.

Plainclothesmen Landfair and Lawlor went to Gehring's home at 9:30 a. m. and placed him under arrest. Police say they are confident Gehring is the man they seek. He tallies with the description obtained by Laughlin.

Bach was charged with burglary and larceny.

Walker said the place was entered thru a rear door out of which a large plate glass was broken.

Wieman and Gehring were arraigned shortly before noon Monday and entered pleas of not guilty. They were bound over to the grand jury. In default of \$1,000 bond each, they were committed to jail.

WEST VIRGINIANS SAY SHE'S COUNTRY'S CHAMP SPELLER

MISS MADELINE BARNES

FAIRMONT, W. Va. — (Special) — The champion speller in the elementary schools of the United States.

That's the title which the people of West Virginia claim for Madeline Barnes, 15, who missed only one word out of 500 in a district spelling match, and only four out of 400 in a county spelling match here. She is already the acknowledged champion speller of West Virginia.

Miss Barnes is the daughter of Mr. and Mrs. G. W. Barnes of Colfax, Marion county.

"If anyone thinks he can equal Miss Barnes' record, he should try some of the words she spelled without the slightest idea of what they would be," says the superintendent of the schools of Marion county.

"Just have someone read a few of these words which she spelled correctly: Allegiance, disastrous, callipers, apologize, inocasin (make), oxidized, turquoise, perspiration, coupe, omnibus, conveyed, consensus, venomous, galvanizing, corroding, occurrence."

ONLY A FEW SHINGLES BURNED IN RESIDENCE FIRES, SUNDAY, MONDAY

Approximately four dozen shingles were burned on roofs of two local homes Sunday and Monday, both fires resulting from sparks emanating from chimneys.

Sidney Wingert's home at 632 Holmes-av was attacked at 9:05 a. m. Sunday. Fire companies, 2, 6 and 1 responded and held the damage down.

Fire at the John H. Perry residence, 426 N. Washington-st., Monday at 7:35 a. m., was of about the same proportions.

Firemen declare the spell of snappy weather is indirectly responsible for the large number of roof fires lately. Soot accumulations in chimneys settled while they were not in use and when householders started up furnaces and stoves again the stuff ignited and swept out on roofs.

CHECK WORKER RELEASED TO ILLINOIS OFFICER

Kenneth McFreeland, 26, a bad check worker who has been serving sentence in Allen-co jail for passing a worthless check, was released to Sheriff John Campbell, of McLeanboro, Illinois, Saturday night.

Freeland has completed his sentence here and will face trial in Illinois for a similar offense. A little slip-up in plans, prior to Christmas, prevented Freeland, authorities say, from making a big haul in Lima. A bad check given by him to bind the sale of a grocery, resulted in his conviction.

PAIR DRAW \$15 FINES; DRUNKENNESS CHARGED

Fifteen dollar fines were given J. B. Price, 26, of 402 E. Market-st., and L. Hurlburt, 29, of 654 N. Union-st., by Judge Jackson in criminal court, Monday, for drunkenness. Price was arrested at the ball park Sunday and Hurlburt was taken Saturday night in N. Union-st.

HISTORIC SHIP IS SOLD AS JUNK

"Dynamite" Cruiser Purchased
By Massachusetts Man

BRINGS SUM OF ONLY \$4,260

Proved Failure in the Spanish-
American War

WASHINGTON — (Associated Press) — The old navy "dynamite" cruiser Vesuvius, in Spanish war days hailed as the possible pioneer craft of a new naval era for the world, has been sold as junk to J. Lipsitz of Chelsea, Mass., for \$4,260. Like many other naval craft which were expected to sweep all battle-ships from the seas as the Merrimac and Monitor wrote the doom of wooden hulls, the "dynamite ship" failed utterly and was discarded.

The naval records of all countries are full of such experimental craft.

The Vesuvius did see real war. In 1898 when the American fleet was concentrated before Santiago de Cuba to bottle up the trapped battle craft of Spain, she steamed down to join the grim ring of steel with three slanting, slender muzzles of her dynamite guns thrusting upward from the sweep of her forward deck. From these queer looking weapons, operated by compressed air, huge projectiles loaded with nitroglycerine charges, sufficient it was thought to tear apart any ship or fortification on which they landed, were to be hurled. The ship itself must be aimed at the target at short range, however, as the guns were immovable in the decks.

PROVED FAILURE

Wild conjectures filled the newspapers as to the terrible damage these new engines of war would do to ships of Spain and the forts that guarded the land locked harbor where they lurked at bay. The nation waited breathlessly for the test.

In time the slim cruiser with her trio of "dynamite" shooters arrived and joined the fleet. As a trial, she was finally ordered in to hurl death and destruction into the walls of Morro Castle on the high bluffs. When the close range necessary because of the low power of the air guns, the Vesuvius finally "let go," a terrible roar came back from the bluff. It shook the earth and sea with the sound and sent frightened residents of the city scurrying in fear to cellars.

But it proved to be only sound. When Santiago fell and examination was possible it was found that no damage had been done to the old forts and the ancient bronze guns that filled their embrasures.

The Vesuvius remained with the fleet through the war, doing patrol and despatch boat duty.

THIRD RELIEF OFFICERS ASSIGNED TO BALL PARK

Third relief members of the local police department were given orders by Chief of Police T. A. Lanker to report at Murphy-st. baseball park and patrol the grounds during games featuring the Independents. The men will be compensated by the management of the club.

FIRST CHRISTIAN CHURCH CONCERT NETS \$100 FOR SOCIAL SERVICE FUND

A total of \$75 was secured by the First Christian church choir, which sang Goun's "Holy City" at the church Sunday evening, to do its bit toward aiding the Social Service fund.

The auditorium of the church was filled with an interested crowd of listeners and music lovers. Soloists were: Mrs. Nellie Wright Schuge, soprano; Miss Helen Bowers, alto; J. Allen Grubb, tenor; Fred Calvert and Norman Evans, bass.

Mrs. F. E. Gooding, Mrs. R. C. Woods and Mrs. Dorothy Richards Davison assisted in trio and quartette numbers.

Mrs. J. Allen Grubb was accompanist. No admission was charged, but a collection was taken. According to R. B. Mikesell, who directed the presentation, object of the church is to increase the donation to \$100, at the services next Sunday.

WILL CAMPAIGN BY AIRPLANE

Oles to Also Use Radio in Race
For Governor

YOUNGSTOWN — (United Press) — Jazz will take a fling at revolutionizing politics next.

George L. Oles, "jazz" mayor of Youngstown, completed plans today for his campaign as independent candidate for governorship of Ohio. He will utilize the radio, airplanes and other modern devices in fighting "politicians," Oles announced.

A carload of red-fire will be added to the equipment "for the benefit of the old-fashioned," he said.

"I'll be elected," Oles said today. "The good people will vote for me and there are many more good people than bad, only the bad ones make so much noise you can't hear the good ones."

"We will use airplanes so as to get over the state quickly. I've gone up in them before and I'm not afraid to die. We can also drop literature down to the small towns as we go between cities for speeches."

"But the radio will help us most. We can reach a lot more people with speeches that way and it's the thing to do."

"When I'm elected, I'm going to clean out the politicians at Columbus. Only the employees who do an honest day's work will remain. Others will go out the back door. I am going to make no promises to any one."

"And I'll make the prohibition prohibit. The bootleggers will have to go to other states. I'll see that they get jail sentences and heavy fines and that things are generally unhealthy for them."

"The greatest need in state finances is to keep down expenditures and keep from issuing bonds for everything. I've succeeded in that here and I can do the same in Columbus."

CHIROPRACTORS ORGANIZE COLUMBUS

Chiropactors from Zanesville, Mechanicsburg, Columbus and other central Ohio towns have formed a new organization to be known as the Central Ohio Society of Straight Chiropractors.

LIMA WOMEN WILL ATTEND MEET

Presbyterian Societies in Van
Wert Conference

50 CHURCHES REPRESENTED

Program of Events For Tuesday
and Wednesday

Women representing Presbyterian churches in Lima will attend the annual meeting of the women's societies of Lima Presbytery, at Van Wert Tuesday and Wednesday. The Presbytery includes about 50 churches and practically all will be represented.

Mrs. L. M. Butler is the delegate from Market-st. church and Mrs. Walter Montgomery, alternate. Mrs. Louise McDonald, president of the Market-st. society, and Mrs. J. M. Longcoy, treasurer of that society, will attend.

OTHER DELEGATES — Mrs. G. R. Phillips is delegate from Olivet and Mrs. Charles Schrader, alternate. Other Lima women who are officers of the society and will attend by virtue of positions, are: Mrs. William Wilson, treasurer of foreign work; Mrs. Samuel Heucker, secretary of young people's work; Mrs. F. C. Becker, secretary of overseas hospital work; Mrs. Harry Robinson, contingent secretary; Mrs. Louise McDonald, president of the Market-st. society, is also sub-editor of the Synodical News.

Mrs. Andrew Todd Taylor, executive secretary of the Philadelphia missionary board, addressed a meeting of officers of Market-st. and Olivet societies at Market-st. church, Monday afternoon. Mrs. Taylor spoke Sunday morning at Olivet and in the evening at Market-st. church. She is en route to Van Wert, where she is to be one of the principal speakers at the Presbyterian missionary meeting.

SPEAKERS NAMED — Mrs. E. E. Lester, president of the Ohio synod of women's societies; Miss Alice Jones, from Punjab, India; and Miss Sara Cochran, Juniper, Tenn., will be other speakers.

Miss Cochran, a worker among the mountaineers of the south, will exhibit handiwork of her class of

boys and girls, who won prizes last year at the Tennessee state fair. Miss Jones, who has served in the foreign mission fields has been at her home in Venedocia the past year, illness preventing her aid in the work up to this time.

Meetings will be held in the Y. W. C. A. building, Van Wert.

MEN AND MATTERS

Rev. A. R. Peffly, 759 W. North st., pastor of Zion Evangelical Lutheran church, Wayne and Elizabeth sts., is confined to his home, suffering from a severe cold. The minister was unable to conduct services Sunday evening.

George Saxby, No. 10 Public Square, left Monday for Saratoga Springs, N. Y., where he was called to the bedside of his sister, Mr. George Munn, whose death is momentarily expected. Mrs. Munn has been in ill health some time. The trip will take Saxby back to his old hometown.

"The Monitor," a magazine in which the interests of St. Gerard's Catholic church are set forth, is being published every month by Rev. Father James Clark, pastor of St. Gerard's Catholic church. The publication was first placed in the hands of parishioners in April.

Stewed Raisins Popular During Raisin Week

Probably the most popular of all raisin dishes this week, which has been proclaimed "Raisin Week" by the California Raisin Industry, is stewed raisins. This delicious breakfast food has only become generally known for the past year or two; and that it has met with much popularity is evidenced by its frequent appearance not only in homes, but in restaurants as well.

STEWED RAISINS

1 package Sun-Maid Raisins.
1 slice orange or lemon rind.
2 cups cold water.

Put raisins and water in casserole and bring to boiling point. Add slice of orange or lemon and cook for 20 minutes. Sugar may be added to taste, but it is not necessary. Stewed raisins being very rich should be served in small portions.

RATHEN COTTAGE PUDDING

1/2 cup butter or shortening.

1/2 cup sugar.

1 egg.

2 cups flour.

4 teaspoons baking powder.

1 cup milk.

1/2 cup Sun-Maid Raisins.

1/2 cup Sun-Maid Raisins.

1/2 cup Sun-Maid Raisins.

1/2 cup Sun-Maid Raisins.

1/2 cup Sun-Maid Raisins.

1/2 cup Sun-Maid Raisins.

FOOD LESSON No. 10

Full-Cream Milk Only Used for GOOD LUCK

The butter-fat content of milk is highly valued as human food and used for creamery products. Milk prices to farmers are based on butter-fat.

But butter-fat is only a small part of the whole milk; while the balance contains practically all the valuable carbohydrates, proteins and minerals as well as most of the water-soluble vitamins and half of the fat-soluble vitamins.

All of these very important food elements are included in fresh Jelke GOOD LUCK because full-cream milk in its purest and best form is churned in fresh Jelke GOOD LUCK Spread-for-Bread.

Thus in using GOOD LUCK you serve a milk product that contains energy-producing, muscle-making, and bone-repairing food elements, as well as growth-producing vitamins.

Because it is wholesome, nourishing and pure serve—

CLUB WORK GROWING

IF the Allen County Farm Bureau never did anything other than to encourage the formation of pig and corn growing clubs among the boys on the farm and cooking and baking and canning contests among girls, the cost of this organization would be justified.

But it goes much farther than that. Primarily, the association of farmers and stock breeders planned aid for their own particular part in the development of the farm, seeking to profit by the mistakes of others—getting information that is born of actual experience. When plans are tried out on experimental farms and by others and proven untenable, the farmer need not waste time on them. On the other hand, if the idea is a good one, it can be universally advantaged.

As an outgrowth of the Farm Bureau idea, plans have been taken up for the benefit of the farm women. Demonstrations are afforded in first aid and home nursing, in cases of accident or illness, where it is not possible to secure the services of a physician or a nurse quickly. Dress form plans are being worked out, instructions given in the cutting and preparing of cloth for clothing.

Instruction is provided in matters dear to the heart of women, in addition to the drudgery of house work, looking after the chickens, feeding the farm help and developing the farm garden. What is being done for the man, the woman, the boy and the girl on the farm is bringing about a better community spirit. It is tearing away the barriers between town and farm and is making for a better and more contented citizenship.

THE STAFF OF LIFE

WHEAT, of the variety that was cultivated 15,000 years ago, is exhibited under glass cases at the Field Museum, Chicago.

It is the most important food ever discovered by man—so important that wheat bread is known in many languages as the staff of life.

Wherever man has carried his civilization on a large scale he has had to carry cultivation of wheat with him.

In 1520, the Spaniards brought overseas the seed that started the giant American wheat-growing industry.

City folks give little thought to wheat, yet all eat it. Your body, thru which your spirit manifests itself in this three-dimensional world, is largely a transformation of wheat.

To millions of farmers the wheat seed is the key to livelihood. This year they will raise seven bushels for every person in the United States.

ECONOMISTS tell you that wheat is the chief regulator of our whole system of economics—from prices to health.

The crash in wheat prices since the collapse of the war boom has illustrated how fickle and unstable is our economic system. It has been so, all thru history.

In May, 1867, wheat hit a mark of \$2.11 a bushel in the cash market at Chicago.

In May, 1870, the highest reached was 92 cents a bushel.

From this crash farmers learn that current price problems are nothing new, but merely a repetition of the endless series of up-and-down cycles.

YOU could devote a whole lifetime to the study of wheat, and still have only a faint conception of its importance in the world's prosperity, health, happiness and progress.

It is one of the things that are taken for granted, without the curiosity that prompts study, by a jaded civilization that trance-like is interested only in the startlingly new.

It excites less interest today than among

ROCKIN' THE BOAT

the primitive people who evolved it slowly from the grasses they cultivated.

Yet the grain of wheat is the principal opening thru which, into our three-dimensional world, flows the mysterious current of life.

o o o o o

DISTRICT FIGHT IMPENDS

"BEST laid plans of mice and men aft gang aglae," is an old and true saying. It applies to politics as well as to affairs of business, society or otherwise.

Weeks ago, the Democratic leaders of the Fourth Congressional district fondly believed they would be able to get away to a flying start in the forthcoming campaign for Congress with but one stalwart party representative as a candidate. It was sought to avoid a primary contest. However, it soon became evident that this plan would not be tenable—could not be.

In all parts of the district it is felt that success for the Democrats this year is assured. Consequently, there is a scramble of candidates for party preference. What has occurred was all along inevitable and therefore is not surprising. Under the political system to which voters give their allegiance, the right is afforded anyone to become a candidate for the office he may desire. Whether he is chosen, is another thing. That is for the voters to decide.

While the Democrats generally feel that this will be a "Democratic year," they should not forget that a bitter primary fight is generally detrimental in the ensuing contest, when the party choice is pitted against the candidate presented by the opposition party.

HEALTH TALKS

Common Sense Ways to Keep Well

ERYSIPELAS

The germ of erysipelas is the ground-hog among germs. It gets beneath the skin thru a cut or scratch and burrows its way around.

The erysipelas germ locates just beneath the skin in the coarser tissues which, since it is so loose and full of open spaces, permits the germ to pass from place to place unhindered.

The local symptoms of the presence of the germ is the reddening, thickening, raising and heating of the skin. Whether the patient suffers generally and has a fever, impaired digestion and delirium, depends on the condition and sensitiveness of the individual.

The usual location of erysipelas is the face. It is the most dangerous part of the body on which to have the disease because the germs may wander into the passages communicating with the brain and set up meningitis (brain fever) or some other fatal brain trouble.

Sometimes facial erysipelas is caused by an infection of the tonsils passing upward and out thru the nose to the tissues underlying the skin of the cheeks. Another common cause is the scratching of the face with dirty finger nails.

The germs cannot break thru healthy skin, so to take the disease from someone suffering from it or from infected objects, one must either cut or prick the skin which permits the germ to go beneath it, or one must breathe the germ in against broken or diseased skin of mouth, nose or throat.

For people under 40 the mortality from this disease is low, but for those over this age it is increasingly fatal with the years.

The disease is exceedingly contagious. Therefore, everything that comes in contact with the sick person should be carefully sterilized before being used by other people.

One of the chief dangers of this disease is the fact that few people realize this contagiousness and they therefore allow the patient to pass freely about the house, handle all sorts of articles, breathe into the faces of the family and eat at the table with the rest of the family.

POEMS YOU WILL ENJOY

BY BERTON BRALEY

THE DAREDEVIL
Fate is a sort of hard old dame
With a bleak and wintry frown
As if he roared and only aim
Were staring your courage down;
And brave is the man who can meet
Her stare
And answer it dauntlessly, glare for glare!

Of tempered steel is his spirit made
Who cowers no white at chance
But grim and dogged and unafraid
Battles with circumstance,
And so goes on with his great endeavors,
Steadfast, stubborn and stern as ever.

But braver still is the man who turns
A humorous eye at Fate,
Who grins and chuckles when he discerns
Her venom and wrath and hate;
Whatever the game, he will stand the gaff
Who can look in the face of fate and laugh!

Some candidates openly boast that they'll enforce the laws, and others are elected. Tipton tried and was elected. (Copyright, 1922.)

WITH APOLOGIES

a movie villain-type mongrel began a nasal scale from low G to a harmonic run of super heights. I surrendered at Harrisburg, leaving my wife, poor wretch, drugged in a serafic bliss, albeit she had shifted into high before the brute below had inhibited her.

So to the smoker, where also newly come from the same cause and effect, was the sad-visaged young man residing in Upper One. Gave up a \$200 a month job to go into the Argonne in 1918. Came out covered with honor ribbons and medals, a kiss from a French general, but short one hand. Had taken as his war bride before embarking, the only daughter of the leading saloonist of his home town. On the briny seas, homeward bound, he was as zippy as soldier might well be. So home, to find a Hungarian had his job and the law had dad's saloon. And dad-in-law dead. War bride and his young baby met him at the station. Told in tears how she had turned the wettery into a dry battery and pool tables and pop. Doing fair when the voters changed to City Manager form of government and taxed her into the hands of the sheriff. This hero of the Argonne, with his medals, his bride and his

habe, are taking bon voyage back to France, he to chauffeur for the du Nord railway.

Porter reports great hub-bub in Upper Two, and I, calling the hero to arms, rush to the prow of the Tallahassee. Signal Pullman chief, train, and summon train conductor. All awake in the Tallahassee now except the sophisticated freshman from Bryn Mawr. Then from wife: "There 'tis." Had stuffed her money in her shoe and the shoe under the pillow. And it was half of all the shoes she had with her. And how was she to get off at North Philadelphia. Saved in the nick of minutes. All out.

So, red-capped to the railway's cozy beanery. And I with verdant verve to my radishes, albeit not so toothsome as our own. And to Atlantic City and into the Ambassador chera bang. The great board walk still gay and brave in late Easter stay-overs. Furs and regalia sports hats in yarns, pheasant and green predominating. A two-mile pedestrian jaunt. To lunch, and a girl at the next table flavored my glance in a cloud of talented and ranged smoke. So to resume my disturbed slumbers and restore nerves racked by the missing shoe.

200 MINERS PUT ON TRIAL

West Virginia Workers Charged With Murder, Treason

OUTGROWTH OF LOGAN WAR

Struggle Between Capital and Unionism Seen Underneath

(Photos on Art Page)

CHARLESTON, W. VA. — United Press) — Two hundred coal miners, most of them sturdy mountaineer stock, went on trial here today on charges of murder, treason and lesser crimes arising from the Logan-co mine war of last summer.

They called themselves crusaders against the feudal rule of the West Virginia coal barons; the prosecution calls them "traitors, slayers and insurrectionists."

The prosecution apparently is planning to proceed with the treason cases, but so far has refused to tell the defense what cases to prepare for. This has angered the defense, which regards this unusual silence as engineered by "operator influence" and designed to hinder the defense counsel in making ready for battle.

SIGNIFICANCE OF CASE
Outwardly, what is being tried here is a group of miners who engaged in the "march on Logan-co" last summer. But beneath the murder and treason charges is a fight of broader consequence to this state and to the nation as a whole. It is a life and death struggle between capital and unionism.

The miners' protest to get into the court record a tale of what they call "industrial autocracy" and "government by force"—a story of the alleged paid police force and espionage system of the operators, which they contend, stopped free speech and the right to organize and finally goaded them into the march on Logan.

They ridicule the idea of treason, which is defined as "levying war on the state."

The prosecution, on the other hand, will seek to show these men as breakers of martial law, who killed guards without ground.

DEFENSE POSITION
How the miners regard the trial was stated by Attorney Houston, chief defense counsel, who made the following statement to the United Press:

"These trials are but an incident of the infinitely larger struggle for the revival and preservation of representative government in certain counties in southern West Virginia."

"They transcend such minor questions as wages and working conditions. They become lost to view in the struggle the miners are making to prevent the complete loss of those things without which life is not worth the living—the right to live in peace, free from persecution by the representatives of the coal autocracy, which seeks to reduce government to an institution of force for the making of profits."

"It is the age-old struggle of democracy, versus autocracy."

"It is the question of whether the worker shall be a beast of burden or a human being."

"As the founders of the republic struggled for political liberty nearly a century and a half ago, so the coal miners are struggling today for semblance of industrial liberty."

"There cannot and there should not be peace in the coal fields of West Virginia until the coal operators recognize the basic civil rights guaranteed by the constitution of the state and nation. So long as men are set upon and beaten because they believe in and advocate the right of associating together for mutual help and advantage, a right conceded to all other persons and classes, a spirit of good will and harmony cannot exist. There is no place in America for privately-owned government. Government here must be of the people."

SPLIT AT GENOA THREATENED

(Continued From Page One)

tions will be referred either to the League of Nations or to a conference of international bankers to be called later, probably by the Bank of England, with the United States Federal Reserve Bank invited to join.

QUESTION FOR BANKERS
It is admitted that questions of exchange and currency inflation are for banking experts and not for statesmen or politicians, and that they cannot be handled successfully at this kind of a conference.

The most now expected of Genoa, even by optimists, is some sort of Brela agreement, possibly to be followed by the adoption of Lloyd George's 10-year non-aggression program.

A week ago adoption of this plan seemed practically assured. Now it is doubtful if France will agree, owing to the Germans having shown their teeth.

The French in private talk are saying that the German-Russian treaty is merely another step in Germany's policy of trying to avoid payment of reparations, and that the French army, with its threat of invasion, is their only hope of making Germany pay.

10-YEAR PACT
Lloyd George, in a statement just issued, says that without a 10-year non-aggression agreement the conference will be a failure.

The British premier may be expected to bring all possible pressure to the French to force compliance with this program.

It must be said that Lloyd George is nearly alone in his prediction that non-aggression be adopted. No one else is so optimistic. But, as he has been accomplishing the seemingly impossible for a good many years—and he may be able to put this over despite all difficulties.

WOMAN EARLY BURNED
COLUMBUS—Mrs. Martha Stewart, 78, probably fatally burned at Frank's-co. infirmary when her clothing ignited from a pipe who was smoking.

Tennis Season Makes Timely Racquet Chat

"Has the lively become more lively?" they're asking in the baseball realm. Bill, who wishes his last name was Tilden, but it happens to be just plain Jones, substituted the query in tennis the other day in an indoor match. He couldn't, for the life of him, discover the reason why the rubber pellet flew past his ear.

International competition for the Davis mug has created a furore in the racquet world. Kumagae, the Jap, Mitsu the Rumanian and the other across-the-water strokers bring with them a repertoire of new fangled ideas. Bill, of course, apes them, with sometimes disastrous results.

Newcomers, especially among the women, are prone to change the rules, as for instance, Bessie, who wishes her first name was Molla, insists on hitting the ball on the second hop instead of the first, while her opponent stands by, helpless and wrathful. "Gwan hit it," he says. "No," she sweetly says, "I'm waiting for the second bounce."

"But that's against the rules." "Well, the horrid things should be revised."

Know the dandy player who sits back and waits for an easy return or a difficult stroke, then catapults to the net and cracks the ball a terrific pelt for an "ace?" He'll be with us again. You'll know just as soon as players begin rubbing their shins, for that is where the majority of the "aces" land.

Notice how he hides when you hit 'em hard and put the old Lawford on 'em. Well, that's the only way to save your shins.

But 'twas a cruel joke they played on the bespectacled net artist. He hits 'em by intuition, it is said. So Bill shoots him a healthy net smash with a lot of reverse stuff on it, and the ball was an apple. The bespectacled one wheeled away and scores heavily on the apple.

Love sets are popular, especially among the girls in leap year. Didda ever notice how the boys let them score 40 consecutive points, just to hear them hiss "Forty lor?"

They say sometimes one confuses tennis with baseball. Occasionally, James, the terrible server, will lay in wait at the service line and from sheer force of baseball habit, grasp his webbed mace with both paws, whereat there is hasty consultation of the rule book, section 113, citations on two-handed stroking.

Very often, court gossip has it, James falls into the net to cover surreptitious practice with blatant error.

Valets are not permissible, but Bill sometimes has Percival appear with him to share the strokes he cannot get. They declare he has discontinued the practice, however, for while directing Percival the other day to canash a twisting "laffer," the ball curved downward on his back. And the game stood 40-30 in the windup of a love set, with his opponent serving.

MOTHER OF LIMA MAN DIES MONDAY AT LAFAYETTE, IND.

Word was received here Monday of the death of the mother of Edward P. Kiely 717 W. Wayne-st., at 1:30 Monday morning at Lafayette, Ind.

Mr. and Mrs. Kiely were at her bedside when death occurred.

CONTEST PROVES A SUCCESS
One of the most unique and successful contests ever held in Lima was won by Joe Cousins at the P. L. Graham Co., plant last Saturday afternoon. He in company with a group of Lima business men held a pie eating contest which was won by Mr. Cousins because he ate ESKIMO PIES the original chocolate coated ice cream bar.

SCHREMS OFF TO ROME
CLEVELAND—Bishop Joseph Schrembs left for New York to sail for Rome where he represents Priests' Eucharistic League of United States at International Eucharistic Congress May 25-27.

INJURED IN CRASH
DAYTON—Mrs. John Coburn, Columbus, injured when automobile driven by her husband collided with machine of Dr. Read of Osborn. Dr. Read and a niece also injured in crash which occurred near Forgy.

DIPLomat HAS NO COUNTRY

Russian at Washington Embassy Without Official Standing

GOVERNMENT IS OVERTHROWN

Corps of Clerks and Servants is Still Maintained

BY HARRY HUNT
WASHINGTON—(Special) — Being a diplomat without a government has its advantages over being a mere man without a country.

Witness the Honorable Boris Bakmeteff.

Bakmeteff resides in the palatial "Russian embassy" here. In the latest edition of the Congressional Directory he is listed as "ambassador extraordinary and plenipotentiary" from Russia to the United States.

Yet the government which appointed Bakmeteff was overthrown more than four years ago—when Kerensky fled and Lenin and Trotsky stepped into power.

The state department, which has refused recognition to the soviet government, still accords Bakmeteff recognition.

CLUB WORK IDEAS DEVELOP QUICKLY

Interest of Farm Boys and Girls Goes to High Pitch

Boys and girls of townships of Allen-co are taking up the work of pig and clothing clubs in earnest.

H. J. Ridge, county farm agent, has just completed a visit to the schools of Richland, Jackson, Bath, Auglaize, Shawnee, Spencer and American-tps, where boys and girls manifested much interest. Leaders of club work in the various townships, designated a month ago when township farm bureaus laid their plans for 1922, assisted Ridge in presenting the work.

The pig club boys go in for the scientific feeding and growing of hogs. Girls in the clothing clubs work with steady texture, the necessity of harmony in garments, and their trimming and wearing and the elementary rudiments of sewing.

Ridge will finish up this work in other townships of the county this week.

MEETINGS PLANNED
A number of meetings, in the interest of the work, which parents and boys and girls are asked to attend, will be held the coming week. A meeting is scheduled for Tuesday evening at Blue Lick school house, of the pig and clothing clubs. Henry Ruklen and W. C. Miller, leaders of the pig club work in Bath-tp and Miss Charlotte Bassitt, leader of the clothing club, will be in charge of the meeting. Ridge, as county farm agent, will assist in getting the boys and girls started on their work.

A meeting is scheduled at Graiz school house in Richland-tp for Wednesday evening. Leader of the pig club there is Henry Huber. That township has no clothing club, but Ridge will endeavor to organize one among girls who will be present at the gathering. A leader will then be appointed.

A meeting of Shawnee-tp parents and children will be held Thursday evening at Shawnee-tp house. Leader of the pig club there is O. L. Bowsher. Mrs. Elias Bowsher is leader of the clothing club.

Marion-tp parents will meet with children at Landeck, Friday evening. County Farm Agent Ridge will present the work of the clothing club and make an effort to interest the young girls who attend. A pig club is at work there. Kenneth Peltier is leader.

TO KEEP BOYS ON FARM
"Boys and girls better equipped for life when they undertake the responsibilities of later years is the object of this work," Ridge says. "It also gives the child an idea of the importance of the old farm and keeps him from that hankering desire to slip off to the city and secure a job, as soon as the work of the farm begins to pall upon him," he stated.

Ridge believes that within the next six weeks Allen-co will have these clubs designed to interest young people in competitive farm talents in every township.

MARRIAGE LICENSES
Carl Osman, 23, machinist, Elida, and Cecil Marie Niely, 23, school teacher, Allentown.
Bert A. Woll, 22, machinist, Pontiac, Michigan, and Rhea Wava Duck, 18, press feeder, 111 Miller-av.
Charles Elbridge Uran, 64, fireman, Fort Wayne, and Mary Victoria Keller, 57, dressmaker, 210 W. Kirby-st.

FUNERAL FOR THREE HELD
FINDLAY—Funeral services held Sunday for Samuel and Flo Meek and Harry Newhart, children who were drowned in Blanchard river April 15, when canoe capsized.

STATE OF OHIO DEPARTMENT OF COMMERCE DIVISION OF INSURANCE
Columbus, March 1st, 1922.
As Superintendent of Insurance of the State of Ohio, I hereby certify that the Commercial Casualty Insurance Company, located at Newark, in the State of New Jersey, has complied in all respects with the laws of this State, applicable to it, and is authorized to do business in this State from the first day of December of the year next preceding the date hereof, as shown by its statement, required by law, to be as follows:

Aggregate amount of available assets \$5,110,025.67
Aggregate amount of liabilities (except capital, including re-insurance, reserve) 3,602,025.67
Net assets 1,501,000.00
Amount of actual paid-up capital 750,000.00
Surplus 751,000.00
Amount of income for the year in cash 4,881,112.25
Amount of expenditures for the year 3,380,779.56
IN WITNESS WHEREOF, I have hereunto subscribed my name and the Great Seal of the State of Ohio, the day and year first above written.
B. W. Gearheart,
Superintendent of Insurance.

DIPLomat HAS NO COUNTRY

Russian at Washington Embassy Without Official Standing

GOVERNMENT IS OVERTHROWN

Corps of Clerks and Servants is Still Maintained

BY HARRY HUNT

WASHINGTON—(Special) — Being a diplomat without a government has its advantages over being a mere man without a country.

Witness the Honorable Boris Bakmeteff.

Bakmeteff resides in the palatial "Russian embassy" here. In the latest edition of the Congressional Directory he is listed as "ambassador extraordinary and plenipotentiary" from Russia to the United States.

Yet the government which appointed Bakmeteff was overthrown more than four years ago—when Kerensky fled and Lenin and Trotsky stepped into power.

The state department, which has refused recognition to the soviet government, still accords Bakmeteff recognition.

OFTEN CONSULTED
At the office of DeWitt C. Poole, chief of the division of Russian affairs of the state department, it was said that "two are in frequent communication with Mr. Bakmeteff."

At the embassy it is explained that Bakmeteff's labors for the past four years have been in "liquidating the affairs of Russia in America, and representing the interests of the Russian people." This latter, it is clearly inferred, is deemed to be wholly distinct from the interests of the soviet government.

Bakmeteff's chief labors in "liquidating" Russia's affairs here have been effecting settlement of contracts for war supplies made by Russia prior to Nov. 1, 1917. For most part this has been done out of the \$187,729,750 advanced by Uncle Sam to Russia before the Bolsheviks seized control of the government, and by the sale of Russian munitions and supplies to the other allies during the last year of the war.

U. S. WATCHES FUNDS
Uncle Sam, however, has exercised close supervision of disbursements from the amount of the government loan.

Of the \$187,729,750 advanced by Uncle Sam, there remained on deposit at the time of the overthrow of the Kerensky government, \$56,000,000. That, it is stated, has now been practically all drawn out.

Also the staff of the embassy has been reduced to merely a counselor and two secretaries, the big embassy building is maintained with a corps of servants and attendants reminiscent of the old days before the overthrow of the czar.

Just where the finances for the maintenance of the embassy are derived is one of the "diplomatic secrets" into which it is not diplomatic to inquire. However, one is given to understand it is a necessary expense properly to be met out of the proceeds of "liquidating" the affairs of pre-soviet Russia.

And, speaking of "liquidating," continued recognition as ambassador from Russia carries with it the privilege of bringing in, under diplomatic immunity, liquids otherwise barred by the Volstead law.

Which is, in many minds, an added reason why being a diplomat, even without a government, is a status greatly to be desired.

LIMA LUTHERAN CHURCH WILL BE REPRESENTED IN DELPHOS CONFERENCE

Zion Evangelical Lutheran church of which the Rev. A. H. Pettly, is pastor, will be represented, in all its departments, at the semi-annual meeting of the western conference of northern district Lutheran churches, joint synod of Ohio and other states, which will be held in St. Peter's Lutheran church, Delphos, May 2 to 4.

The conference will extend over three days. The meeting will open Tuesday, May 2, and continue until noon of the following Thursday.

In addition to the regular conference of pastors, in which papers on various topics of interest to heads of churches will be presented and discussed, there will be special services on Tuesday and Wednesday evenings.

Twenty-six ministers are members of the conference.

CONTEST PROVES A SUCCESS
One of the most unique and successful contests ever held in Lima was won by Joe Cousins at the P. L. Graham Co., plant last Saturday afternoon. He in company with a group of Lima business men held a pie eating contest which was won by Mr. Cousins because he ate ESKIMO PIES the original chocolate coated ice cream bar.

Leaders of club work in the various townships, designated a month ago when township farm bureaus laid their plans for 1922, assisted Ridge in presenting the work.

FARM GARDEN WORK PICKS UP

Farmers and amateur gardeners, at the week start-off, view with optimism the situation in regard to the opportunity for the completion of spring work, in preparing the ground for summer crops.

Inclement rains for a fortnight stopped activities in that direction for the most part. Weeds are getting a start to rank growth and the situation is viewed with alarm. Ted is out with his hoe, fighting the weeds on his tract.

Fair tonight, warmer in west, frost in east and central portions. That let us out, here in western Ohio, so far as frost danger is concerned, if the weather forecast is correct. The optimist will believe a no-frost prediction, any time. Tuesday is to be cloudy and warmer, with probable showers in extreme west portion. That'll hit us.

Excessively wet weather has been a dampener on the activities of mushroom hunters, but as warmer conditions grow in prospect and the ground is drying out to some extent, they see prospect of good "catches" before the season comes to an end—about May 10.

NO ATTEMPT TO "BLOW LID"

Blue Law Order Remains Intact At Spencerville

M'CABE MAY BE ARRESTED

Suspended Auglaize-co Sentence is Revived

Attempts to blow the "blue law" lid off at Spencerville Sunday were frustrated, by Ernie Henne, village marshal, who kept a close watch on the front and rear doors of business houses.

There were rumors to the effect that everyone was going to open up for business at the same time and tell the marshal to go jump in the canal.

CALIBOOSE IS SMALL
The village calaboose is capable of holding only a few and I was argued that it wouldn't hold 'em long. But everything went off quietly and nothing of the sort was attempted.

Mostly for the reason that more than half the town spent the Sabbath elsewhere, Mayor C. C. Laman

who is reported to have "beat it" Saturday night, wasn't back on Monday.

Roma McCabe, who started all the rumpus by keeping his picture house open on Sunday, may be arrested for violation of a parole from Auglaize-co common pleas court.

McCabe was convicted nearly two years ago for operating a picture show on Sunday at St. Marys. He was fined \$25 and a 60 day jail term was suspended.

MAY JAIL MCCABE
H. C. Stuber, secretary of the Lords' Day Alliance, who is seeking to close all Sunday amusements and business of all sorts, wants McCabe arrested for violating the terms of the suspended sentence. They would put him behind the bars.

A certified copy of the sentence has been asked by Judge F. C. Layton, Auglaize-co common pleas court. It may be filed in Allen-co. Sheriff Charles W. Baxter said no papers in the case had been filed with him.

BODY OF STORM VICTIM TAKEN TO WAPAKONETA

The body of James W. Riley, 51, who died at St. Rita's hospital, Sunday, following injuries received in the tornado of last Monday night, was accompanied to the home of his son, Orville Riley, in Wapakoneta. Funeral arrangements have not been completed.

Para Rendered Lard, 2 lbs., 25c at Buehler's, 126 E. High.

MISSION GROUP ANNUAL MEETING HERE WEDNESDAY

WEDNESDAY will mark the fifth annual meeting of the Women's Foreign Missionary society of the Delphos and Lima groups. The gathering will be held in this city at Epworth M. E. church and the group leaders will be Mrs. Eugene Lippincott and Mrs. F. W. Baxter, of Elida.

The meeting will open at 10 a. m., with Mrs. Baxter presiding. The following program will be given: Prayer and praise, Rev. G. M. Baumgardner; greeting, Mrs. Oscar Harpster; response, Mrs. D. N. Kelly; group messages, district officers and auxiliary; "A Live Auxiliary and How To Make It," Mrs. Stanley Pelletier, of Delphos; discussion led by Mrs. G. G. Bice, of Wapakoneta; play, "Miss Friend," in charge of Mrs. Oren Dickason and Mrs. H. W. Bryan; noon prayer, Rev. S. A. Beck.

At noon a covered dish luncheon will be enjoyed. The luncheon committee includes Mrs. H. W. Bryan, Mrs. G. M. Baumgardner, Mrs. O. A. Osman and Mrs. C. C. Creps.

The program for the afternoon will open at 1 o'clock with Mrs. Eugene Lippincott, presiding. The program follows: Quot hour, in charge of Mrs. W. D. Cole; music, double quartette from Elida; a talk on "Our Children," Mrs. A. A. Dole; a talk on "Union Colleges," Mrs. C. V. Stephens; "A Call from God for This Hour," Mrs. A. E. Smith, of Ada; vocal solo, Mrs. Paul Smith; prayer and benediction, Dr. D. F. Helms.

The Young People's meeting will open with a six o'clock banquet. Mrs. Harriet Zerkel will preside and the following numbers will be given: Gretches, Mrs. Rita Reed, response from a Sidney member, Thank Offering from a St. Marys member; three minute response from companies; snap shots from Camp Wesleyan; music and a story telling contest conducted by Mrs. D. F. Helms.

The Rath Bible Class of Trinity M. E. church will meet with Mrs. Fred Bisanetz, of 504 Woodlawn-av, Wednesday afternoon.

Miss Edna Watson, daughter of Mr. and Mrs. A. F. Watson, of E. Kirby-st, and Roland Pierstoft, son of Mr. and Mrs. F. J. Pierstoft, of S. Metcalf-st, were quietly united in marriage Saturday morning at 10 o'clock at St. John's parsonage. The Rev. Leonard J. Plumans officiated and the attendants were Miss Laura DeCurtis and Michael Keveller. Mr. and Mrs. Pierstoft will reside in Jackson, Mich.

Miss Irene Johns, of Fanolet-av, was hostess to the members of the Girl's club, Saturday afternoon. During the business session the following officers were chosen: Irene Johns, president; Winifred Bowsher, vice-president; Dorothy Woods, secretary and Alice Van Wormer, treasurer. Needlework and a contest, in which Miss Helen Van Wormer was successful followed and a delicious lunch was served by the hostess.

The next meeting will be held in two weeks with Misses Helen and Alice Van Wormer.

Mrs. H. B. Riko and nephew, Otto Junior Nichols enjoyed the day in Dayton, Sunday.

Mrs. Loren Dickson and Mrs. David Allgrove held high scores in the eugene games while Mrs. Herman Toole was low at the meeting of the Rainbow club with Mrs. Ora Campbell, of Leland-av. At 4 o'clock the hostess served a dainty lunch.

The next meeting will be held in two weeks with Mrs. Rella Wildoner, of Brice-av.

Mrs. H. B. Riko and nephew, Otto Junior Nichols enjoyed the day in Dayton, Sunday.

MISS CHRISTEN'S DAILY PAGE OF CLUB AND SOCIETY EVENTS BRAVEST WOMEN IN THE WORLD

Mr. and Mrs. E. H. Hawisher, of S. Baxter-st, will welcome the members of the W. W. club at their home, Tuesday evening.

Miss Elizabeth Welsh, daughter of Mr. and Mrs. T. A. Welsh, of Brice-av, and Miss Margaret Lynch, daughter of Mr. and Mrs. M. J. Lynch, of W. High-st, return Monday to resume their studies at St. Marys-of-the-Woods after spending the spring recess with their parents.

In honor of her 12th birthday anniversary little Miss Kathleen Basinger welcomed a large group of little friends at a most enjoyable gathering at the home of her parents, Mr. and Mrs. Pete Basinger, of W. Wayne-st, Saturday afternoon. Contests and games formed the diversions and a delicious luncheon was served, a color scheme of pink and yellow being carried out in the appointments.

The guests included Rosemary McNeff, Ruth Hastings, Pauline Stichter, Helen Jolley, Helen Gillham, Beulah Clapper, Mildred Pangle, Lucille Witten, Katherine Maurer, Delores Thomas, Laura Jane Gilbert, Virginia Tabler, Maxine Bishop, Leona Collier, Miriam Morton, Ruth Jones, Beatrice Pangle, Martha Huoecker, Wilmer Moulton, Louise Wing and Jack Basinger.

Mrs. Harry S. Moulton, of W. Market-st, returned Sunday from a week's stay in Cleveland and Toledo.

Mr. and Mrs. H. M. Butts returned to their home in Albany, N. Y., after a visit with the Rev. and Mrs. Walter D. Cole, of S. West-st.

Mrs. August Schade, of S. Collett-st, left Monday, for a 10 days' stay in Cleveland.

Mrs. H. D. Winemiller, of E. High-st, entertained with an informal gathering Saturday evening, in honor of the 15th birthday anniversary of her daughter, Miss Mary Catherine. Games and dancing were enjoyed thruout the evening and James Kelly favored with several piano solos. At a late hour a dainty luncheon was served by the hostess assisted by Mrs. Nichols.

Those enjoying the occasion included Misses Urdi Messick, Phyllis Nelson, Delight Wildoner, Helen Wildoner, Helen Mullenhour, Edyth Hines, Imogene Risor, Mildred Burkhardt, Olive Van Pitt, Beatrice Diller, Messrs. Walter Buckley, Harry Blair, Dale Johnson, Fred Bowsher, James Kelly, Russell Betz, Ernest Fletcher, Clarence McPherson, Russell Stewart and John Baldwin.

Mrs. H. M. Kamerer, of W. Market-st, will entertain the Bids-a-Wee Bridge club at her home, Tuesday at 2 p. m.

A dry skin is often caused by the use of too much soap. Too much powder also produces the same results.

Quick breads are always nice to serve with afternoon tea. All women like them and they are much nicer to offer to guests than elaborate filled sandwiches or sweet rich cakes.

Graham flour or bran makes a bread that will be welcomed by the woman who would "eat and grow thin." She may enjoy her cup of tea with lemon and a brown bread sandwich at 4 in the afternoon and not worry over added ounces.

One cup whole wheat flour, 2 cups bran, 1 cup sour milk, 1-2 cup molasses, 1-2 cup nuts, 1-2 cup chopped prunes, 1-2 teaspoon soda, 1-2 teaspoon salt.

Soak prunes two hours in cold water. Drain and remove stones. Cut in small pieces. Mix flour, add molasses, salt, nuts and prunes. Dissolve soda in milk and stir into first mixture.

Turn into a buttered and floured bread pan and bake an hour in a slow oven. It wanted for sandwiches bake the day before needed.

Four cups flour, 1-2 cup sugar, 6 teaspoons baking powder, 1-2 cup molasses, 1-2 cup nuts, 1-2-3 cups milk, 1 egg, 1-4 cup finely shredded crystallized ginger.

Mix dry ingredients. Add nuts broken in small pieces and shredded ginger. Add milk and egg well beaten. Bake in a buttered and floured bread pan. Let the dough rise for 20 minutes before putting it in the oven.

One and one-half cups cornmeal, 1-2 cups graham flour, 5 teaspoons baking powder, 1-4 teaspoon soda, 1 teaspoon salt, 3 tablespoons brown sugar, 3 tablespoons molasses, 1-2 cups milk, 3-4 cup chopped dates.

Mix dry ingredients. Add molasses, milk and dates. Mix thoroughly and turn into buttered and floured bread pans. Bake an hour in a hot oven.

One and one-half cups cornmeal, 1-2 cups graham flour, 5 teaspoons baking powder, 1-4 teaspoon soda, 1 teaspoon salt, 3 tablespoons brown sugar, 3 tablespoons molasses, 1-2 cups milk, 3-4 cup chopped dates.

Mix dry ingredients. Add molasses, milk and dates. Mix thoroughly and turn into buttered and floured bread pans. Bake an hour in a hot oven.

One and one-half cups cornmeal, 1-2 cups graham flour, 5 teaspoons baking powder, 1-4 teaspoon soda, 1 teaspoon salt, 3 tablespoons brown sugar, 3 tablespoons molasses, 1-2 cups milk, 3-4 cup chopped dates.

Mix dry ingredients. Add molasses, milk and dates. Mix thoroughly and turn into buttered and floured bread pans. Bake an hour in a hot oven.

One and one-half cups cornmeal, 1-2 cups graham flour, 5 teaspoons baking powder, 1-4 teaspoon soda, 1 teaspoon salt, 3 tablespoons brown sugar, 3 tablespoons molasses, 1-2 cups milk, 3-4 cup chopped dates.

Mix dry ingredients. Add molasses, milk and dates. Mix thoroughly and turn into buttered and floured bread pans. Bake an hour in a hot oven.

One and one-half cups cornmeal, 1-2 cups graham flour, 5 teaspoons baking powder, 1-4 teaspoon soda, 1 teaspoon salt, 3 tablespoons brown sugar, 3 tablespoons molasses, 1-2 cups milk, 3-4 cup chopped dates.

LEFT TO RIGHT: MISS ANNIE MAE WRIGHT AND MRS. D. M. STAPLES.

NASHVILLE, Tenn. — (Special) —Bravery? The "Battalion of Death" must have been playing in the bush league! For after we've all pretty well settled down to the conclusion that when a woman sees a mouse the natural reaction will be a scream and a quick ascent to the top of a chair, along come Miss Annie Mae Wright and Mrs. D. M. Staples and knock that truth higher than a cocked hat.

For these two women are rat-catchers. They catch enough rats every day to make the famed "Red Paper of Hannula" look like a piker.

Right now they're waging a rat-killing war in Nashville. There were 10,000 casualties among the enemy in the opening day of their campaign.

Their method is simple. By using the barium carbonate process they are enabled to entice the rodents to their death in unlimited numbers. Whole cities are relieved of the pests within a few days.

In the picture, they are ready for the fray in their regulation working costumes. Both are Virginians. Bart certainly did that part of his rehearsal extremely well. Doubtless he had to be rude and compelling, so I didn't scold him for overacting. To demonstrate would have been to assume too much, as if I were taking personally what Bart intended for art.

They are veterans now, having waged rat-exterminating campaigns in 15 states in the three years since their graduation from college.

Clean combs and brushes, scalp massages and occasional shampoos are enemies of dandruff. Dandruff is a main cause of baldness.

An ordinary basket, if used for toys, will save a lot of work about the house. Train the children to put toys back in the basket after playing with them.

Quick breads are always nice to serve with afternoon tea. All women like them and they are much nicer to offer to guests than elaborate filled sandwiches or sweet rich cakes.

Graham flour or bran makes a bread that will be welcomed by the woman who would "eat and grow thin." She may enjoy her cup of tea with lemon and a brown bread sandwich at 4 in the afternoon and not worry over added ounces.

One cup whole wheat flour, 2 cups bran, 1 cup sour milk, 1-2 cup molasses, 1-2 cup nuts, 1-2 cup chopped prunes, 1-2 teaspoon soda, 1-2 teaspoon salt.

Soak prunes two hours in cold water. Drain and remove stones. Cut in small pieces. Mix flour, add molasses, salt, nuts and prunes. Dissolve soda in milk and stir into first mixture.

Turn into a buttered and floured bread pan and bake an hour in a slow oven. It wanted for sandwiches bake the day before needed.

Four cups flour, 1-2 cup sugar, 6 teaspoons baking powder, 1-2 cup molasses, 1-2 cup nuts, 1-2-3 cups milk, 1 egg, 1-4 cup finely shredded crystallized ginger.

Mix dry ingredients. Add nuts broken in small pieces and shredded ginger. Add milk and egg well beaten. Bake in a buttered and floured bread pan. Let the dough rise for 20 minutes before putting it in the oven.

One and one-half cups cornmeal, 1-2 cups graham flour, 5 teaspoons baking powder, 1-4 teaspoon soda, 1 teaspoon salt, 3 tablespoons brown sugar, 3 tablespoons molasses, 1-2 cups milk, 3-4 cup chopped dates.

Mix dry ingredients. Add molasses, milk and dates. Mix thoroughly and turn into buttered and floured bread pans. Bake an hour in a hot oven.

OUR FIRST YEAR

—BY A BRIDE—

ROBBED OF AN OLD RIGHT

YOU MAY BEGIN HERE

Despite herself, and a pact with her husband, Peggy finds it hard to maintain complete independence of action after marriage. First her extravagances caused her husband to put her on a budget. Now she encounters difficulties in her contacts with Bart Elliot, her platonic friend, with whom she is cast in amateur theatricals.

Budget planning had fussed me more than I liked to admit. Like all brides, I was determined to please my husband. I wanted him to think me capable. I knew very well that when a girl marries, she ought to be competent to carry out her part of the contract. And I was discovering daily that I was not equal to my job!

After Jack had gone to work, I sat down to figure out how much I could spend for meat for dinner. When you've set aside a certain sum for food, you've only begun with your budget. You've got to determine by calculation and experiment how much to pay for various articles of diet. And so I neglected my morning routine and sat me down to the arithmetic of home-making.

My problem was interrupted by a call to rehearse "Skool." I had not set my house in order when the summons came. I left things as they were and hurried over to the Little Playhouse.

It was an irritating morning. The actors did not know their lines. I didn't know mine. Bart had committed only the sentimental stuff.

Bart Elliot was awfully glad to see me, but he never mentioned our late disagreeable half hour in my kitchen. Once he would have argued the matter all over with me. And I found myself regretting a chance to quarrel with him smartly—about nothing at all—as we had done all our lives.

Because I was now a married woman—one more harmless and pleasant familiarity was denied me. Probably a viking was by nature a fierce and tempestuous lover. Bart certainly did that part of his rehearsal extremely well. Doubtless he had to be rude and compelling, so I didn't scold him for overacting. To demonstrate would have been to assume too much, as if I were taking personally what Bart intended for art.

They are veterans now, having waged rat-exterminating campaigns in 15 states in the three years since their graduation from college.

FELDMAN'S

Lima's Store of Specialty Shops

35 Years
of Service

35th Anniversary SALE

The event which has been in preparation for a solid year

With justifiable pride we point to a great store full of such merchandise values as are seldom assembled under one roof. Such bargains would be impossible if sought by an ordinary store for an ordinary event. But this store is not an ordinary store—it is a store surrounded by the friendship and co-operation of hundreds of manufacturers and wholesalers, gained through 35 years of straight business dealing.

The manufacturers and wholesalers, when asked for special price concessions to make this sale the crowning achievement of our thirty-five years of service, responded so enthusiastically as to make possible such an imposing array of super bargains as will be found here during the full duration of this Great Sale. Only a limited number have so far been placed on sale. Other bargains equally as important will be announced from time to time.

THE WHITE DESERT

BY COURTNEY RYLEY COOPER

(Continued From Page One)

there had come the strong odor of burning rubber; the foot-brake linings were gone; everything depended upon the emergency now! And almost with the first strain—

Careening, the car seemed to leap beneath him. The brakes were gone, the emergency had not even tasted the first hill. Barry Houston was now a prisoner of speed—cramped in the seat of a runaway car, clutching tight at the wheel, leaping—white, tense-faced out into the snow, as he struggled to negotiate the turns, to hold the great piece of runaway machinery to the road and check its speed from time to time in the snowbanks.

One chance was left, and Barry took it—the “burning” of the gears in lieu of a brake. If the burned gears could only hold the car for a mile or so more—

But a sudden, snapping crackle ended his hope. The gears had meshed,

PATTERN FOR TODAY

A Dainty "PARTY" OR "BEST" DRESS

3959 Canton crepe or crepe de chine would be attractive for this size, but it is also for gingham and other cotton weaves. The skirt is joined to a long waistband under-neath. The overhanging caught up at the sides in soft folds under ribbon forming a motif or rosette. It is topped over the dress when worn. It may have both skirt and over-lyse in straight or scalloped out-

This Pattern is cut in 4 Sizes: 6, 10 and 12 years. A 10 year size gives 2 3/4 yards of 40 inch mate-

A SECOND TURN, WHILE A WHEEL HUNG OVER THE EDGE, A THIRD AND—

and meshing, had broken. Again a wild, careening thing, the car was speeding down the steepest of grades like a human thing determined upon self-destruction.

A skidding curve, then a straight-away, while Barry clung to the wheel with fingers that were white with the tightness of their grip. A second turn, while a wheel hung over the edge, a third and—

The awful, suspended agony of space. A cry. A crash and a dull, twisting moment of deadened suffering. After that—blackness.

Slowly, wearily, Barry Houston opened his eyes.

It was the room of a mountain cabin, with its skids and snowshoes. His eyes centered upon the form of a girl standing beside the little window. Fair-haired she was, the Barry did not notice it. Small of build and slight, yet vibrant with the health and vigor that is typical of those who live in the open places. Dark blue eyes that flashed as she looked out the window, watching with evident eagerness the approach of someone Barry could not see. Barry felt the instinctive urge to call to her, to raise himself—

He winced with a sudden pain, a sharp, yet aching throb of agony which involuntarily closed his eyes and clenched tight his teeth until it should pass. When he looked again, she was gone, and the opening of a door in the next room told him where. He sought to move an arm—only again to desert in pain. He tried the other, and it responded. The covers were lowered, and Barry's eyes stared down upon a bandaged, splinted left arm. Broken. He turned his head at the sound of a voice—hers—calling from the doorway to someone without.

"He's getting along fine, Ba'tiste." Barry liked the enthusiastic manner. "Out! Heen no ver" bad. He be all right tomorrow."

"That's good. It frightened me, for him to be unconscious so long."

"Lemme see. I fin' him six o'clock. New—er't is the noon. Six hour. M'sieu Thayer he come in the minute. He say he think he know heem."

The eyes of Barry Houston suddenly lost their curiosity. Thayer? Barry

had taken particular pains to keep from him the information that he was anywhere except the East. For it had been Fred Thayer who had caused Barry to travel across country in his yellow speedster. Thayer who—

"He say the M'sieu Houston, who own the mill, had written him he was coming."

In the other room, Barry Houston blinked rapidly and frowned. He had written Thayer nothing of the sort. The names of two persons flashed across his mind, one to be dismissed immediately, the other—

"If I do—leaving the minute I get back!" came vindictively. "I'll—"

He choked the words.

A moment later—

"How's the patient?" It was Thayer's voice, the same Thayer that he once had looked upon with all the enthusiasm and pride of boyhood, but whom he now viewed with suspicion and distrust.

"Guess I'll go in and stay with him until he wakes up. He's my boss, you know—since the old man died."

Within the bedroom, Barry Houston gritted his teeth. Then, with a sudden resolve, he rested his head again on the pillow and closed his eyes. Barry could feel that the man was bending over him, studying him. There came a murmur:

"Wonder what the damn fool came out here about? Wonder if he's wise?"

CHAPTER II

It was with an effort that Houston gave no indication that he had heard. Before there had been only suspicion, and he had not hoped to have from the lips of the man himself a confession that conditions were not right at the lumber mill of which Barry Houston was the executive head. But now—

Thayer had turned away and evidently sought a chair at the other side of the room. Barry remained perfectly still. When at last he did look up into the narrow, sunken face, it was with eyes which carried in them no light of recognition. Thayer put forth a gnarled hand.

"I'm Thayer, you know—Thayer, your manager at the Empire Lake mill."

"Have I a manager?"

ENTERS RACE FOR GOVERNOR

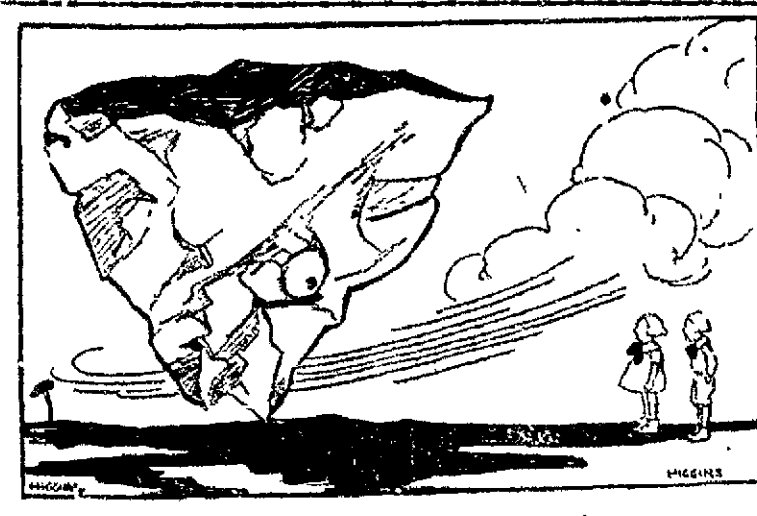

MRS. W. D. MOWRY

KANSAS CITY, Kas. — Mrs. W. D. Mowry has entered the race for the Republican nomination for governor of Kansas. Her girl opponent on the same ticket, is Miss Helen Pettigrew, who recently declared in favor of the return of "light wine and beer."

Mrs. Mowry is opposed to any loosening up of the prohibition laws. Both candidates live in Kansas City.

THE LAST MOUNTAIN

By OLIVE ROBERTS BARTON

Without any warning the mountain did a most outrageous thing. The last of the Seven Mountains it happened, but it wasn't more than 10 steps away.

"Oh!" cried the Twins, stopping there.

When Nancy and Nick stepped off the Five-and-Ten-Cent-Store Mountain, still holding tight the record. It was with great joy that they saw this other mountain before them in the distance.

"It's not a very high one," said Nick, "and we ought to be over it in a little while. Just beyond is the kingdom of the Diddys."

Off they started as fast as their little legs could carry them to make up for the time they had lost. But when they walked and walked until they were nearly ready to drop the mountain appeared no nearer.

"There must be something the matter," said Nancy. "I'm so tired I don't think I can go another step."

"I don't understand it," puzzled Nick. "I thought there might be some trick about it because its name is so funny, or something like that. I thought maybe there was no mountain. But there is because we can see it. Oh, come on, we'll have to get there sometime." And he gave Nancy's arm a pull.

So poor, tired Nancy trudged on again. Suddenly the mountain was as near to them as the house next door is to yours. It was hard to say how

suddenly. Then they laughed merrily. "Why we were getting nearer all the time," said Nancy, "and we didn't know it."

"Well, now that it's here, we'd better climb it," said Nancy wisely. They were about to take a step up its steep side when, without any warning, the mountain did a most outrageous thing. It swung slowly over and balanced itself quite nicely on its top.

"Oh, now I know!" said discouraged Nick. "When anything's crazy they say it isn't there. That must be how the mountain gets its name."

Children Cry FOR FLETCHER'S CASTORIA

Men's Women's — AND — Children's Clothing — ON — Easy Credit Terms

THE STAR

A Lima Owned Store
17, PUBLIC SQUARE

"You children must finish your dinner!"

One of the first and most marked effects of Yeast Foam Tablets is to increase the appetite.

"If a growing child has no desire to eat, there is something serious the matter with him," says a noted specialist in the care and feeding of children. "A frequent and increasing cause of this failing or finicky appetite is lack of B vitamin."

This vitamin is found in greatest abundance in yeast; and Yeast Foam Tablets are made entirely of pure, whole concentrated yeast.

Give your child Yeast Foam Tablets. Watch him improve. Note how his appetite returns; how he will grow, put on normal weight and increase his strength and endurance!

Why many foods are deficient

Many raw foods which originally contained vitamin lose this element through "preparing processes" such as milling of wheat and other grains; refining of sugar; heating foods to high tempera-

tures; discarding of water in which food is boiled, etc. The vitamin B thus lost can be quickly replaced by the addition to the diet of Yeast Foam Tablets.

Is your child under the proper height or weight?

If your child isn't heavy enough or tall enough; if he is delicate, pale, irritable, backward in school, in all likelihood he is suffering from malnutrition.

This disorder retards children physically, mentally, nervously. It lowers their vitality and makes them easy victims of infection

and contagion. Yet there are over 5,000,000 school children, from the homes of rich and poor alike, who are afflicted with it!

Weigh, measure and study your child. If he seems deficient in one or more respects, you may find Yeast Foam Tablets a simple and prompt corrective for his condition.

SCREENING OF "OUTLINE OF HISTORY" PLANNED

(BY ESTHER WAGNER)
D. W. GRIFFITH is negotiating with H. G. Wells in London for the right of the "Outline of History." If the deal is consummated it will mean the greatest photoplay yet created, a story by the most imaginative writer of the age screened by the greatest genius of motion pictures.

No details of the production plans are available at this time, as the negotiations have been carried on in secret. However, it is certain that the production of this picture will be on a larger scale than anything ever before attempted.

Wells will undoubtedly make it a million of the contract that he will be the last word in the interpretation of his story. He is one of the great writers of today who have used to have their stories translated into celluloid, the other being George Bernard Shaw.

Wells probably would not even consider an offer for the screen.

rights to "The Outline of History" if any director other than Griffith were to supervise the production. Griffith will have financial backing for his genius. He has made a fortune in pictures and he has made financial connections that represent the bulk of America's wealth. These business associates of his would undoubtedly write checks for any amount that would be needed in the filming of so comprehensive a work as "The Outline of History."

The book was in two thick volumes. If the meat of it is to be retained—and Wells would hardly countenance a condensed form of the story—a picture of great footage will be required.

That means a multiple-reel picture, a screen story to be told in chapters or installments of eight or ten reels.

But above all else the screening of "The Outline of History" would mean a greater thing, the general recognition of the lowly movie as the equal of other arts.

D. W. GRIFFITH

H. G. WELLS

Mark Twain's "A Connecticut Yankee"—Sigma

MARK TWAIN, the kindly old humorist who lived in no greater hope than to leave to future generations a legacy of laughter, would see his fondest dream realized if he could but return for a few hours and see the screen version of "A Connecticut Yankee" in King Arthur's Court.

If ever there was a brilliantly funny production, this is that picture. Its plot has been modernized, so that we get knights driving in automobiles; Arthur's hosts attacking on motor cycles; the hero, ringing the bell on the phone; references to "dry" America, and various other sentiments expressed in the slang vernacular of today.

There's no apparent need of out-lining the story, for probably every other family in the world has a dog-eared copy of "A Connecticut Yankee" tucked away in the corner of the library shelf somewhere.

Heading the excellent cast is Har-

ry Myern, who brings his distinctive personality and delightful drollery to excellent usage in the film. He's a figure to remember, the swash-buckling, keen-eyed young Yankee who completely overthrows the equilibrium of the King's court; corrupts the morals of the court attaches by teaching them various and assorted kinds of pastimes, mannerisms.

"This is the way they'll do it in America," after old Chris Columbus discovers it," he tells the adoring inhabitants.

The subtitles? They're robust and slangy, hazarded in such delicate and subtle drollery that they keep the audiences in convulsions. You laugh heartily; you admit that it is sheer nonsense and silliness, but you laugh. And a film that can keep any one amused for two solid hours and not grow tiresome is SOME picture.

Take the kiddies when you go. They'll enjoy it as much as you will.

Your Wallace as a Prize-Fighter, Girls

THE World's Champion," with Wallace Reid in an entirely new and engaging role, is certainly a knock-out picture, judging from the kindly way in which it was received at the Quilna, on its first appearance Sunday. It is an adaptation of the famous play by Thomas Loudon and A. E. Thomas and promises to be one of the best pictures in which Mr. Reid has starred.

Of course, it is really a work of supererogation to say anything in praise of Wallace Reid. He still is and probably always will be, the ideal screen hero and he goes right on enjoying himself immensely in any role the producers may submit to him. This time, too, he has Lois Wilson to fight for. She's a joy, and worth watching.

Really, there isn't a bit of use in telling you the story. That would rather detract from your enjoyment. In case you haven't as yet seen the

picture. Be assured, however, that Wallace, as the middleweight champion of the world, gets the money and the girl for himself, the much-sought-after social position for his dolling parents, in the meantime, losing the villain—who isn't a bad sort, even tho he is a Lord something or other, and a trifle obese.

The picture is extremely well directed and cast and the settings and scenes are especially well done. And besides the work of the star and Miss Lois, you will enjoy heartily the portrayal of the butler by W. J. Ferguson, whose characterizations are always a delight.

And that, I believe, covers the subject quite thoroughly. "The World's Champion" will satisfy the men and intrigue the ladies, the girls, the flappers, etc. Few pictures really do all that.

At the Quilna again today and until Thursday.

Tornado Disaster Pictures at the Sigma

A PICTORIAL record of the havoc wrought in a number of hamlets and villages adjacent to Lima by the terrific tornado which swept this section last Monday evening, is appearing as a regular

portion of the Fox News, showing this week at the Sigma theatre. All of the scenes were photographed by Willard Gramm, of this city, who is the special representative in this district for the Fox

"A Prince There Was"—He Was Tommy Meighan

A PICTURE play that is entirely devoid of sticky sentiment, yet told in a manner that will delight every last one of you, is Paramount's "A Prince There Was" starring Thomas Meighan, and presenting Mildred Harris and Little "Peaches" Jackson in important supporting roles. And Nigel Barrie, too. Mustn't forget him.

Well, the "prince" of our story is a wealthy, but discontented young man who, like in all good novels, has tasted life to the fullest and has found it rather flat and empty. And by way of contrast, there lives in a second rate boarding house a struggling young lady whose father had sought the suicide route to the hereafter, leaving his daughter entirely upon her own resources, which did not amount to a lot. He had, it seems, been ruined in a financial deal, which affair had hastened his untimely demise.

Katherine, his daughter, tries her hand at writing stories for magazines, which the editors promptly and consistently turn down. And this is where the "prince" comes in and with the situation in hand, i. e., a damsel in distress, a lot of things happen in quick succession, working to a delightful finish, when it had seemed that only tragedy and shattered romances were to be the poor girl's guiding fates thru life.

Mr. Meighan was never better than he is in this picture. Miss Harris is her usual harried, tearful self; Little Peaches Jackson does some wonderful character work and again proves herself one of the real artists of the screen.

"A Prince There Was" is a family picture. They'll all like it, from six to sixty. And incidentally, it is the last Paramount picture to show at the Faurot.

THEATRE DIRECTORY
AT THE LYRIC
Mabel Normand and Owen Moore are co-starring in "Oh, Mabel Behave," appearing today and until Thursday, at the Lyric theatre.

Mack Sennett also appears in an important role.

AT THE ORPHEUM
New stock attraction, with the Raynor Lehr Co., presenting the old favorite, "Way Down East" with new songs, dances, specialties, etc. between the acts.

AT THE MAJESTIC
Cecil DeMille's "Something to Think About" is the feature attraction again today at the Majestic theatre. Gloria Swanson and Elliott Dexter head the cast. Also a Percy and Ferdie comedy.

THE MOVIE-TORIUM
Eva Novak is to be starred in a new series of feature pictures.

James E. Warner and Elinor Fair will be featured in "High Stakes."

Ethel Clayton, Jane Novak and Carter DeHaven are now making films for R-C Pictures.

Norman Kerry and Hazel Dawn are to be co-starred in a series of pictures to be made in Vienna with European casts.

"A Ladies' Man"—can you imagine Bull Montana as star of that? That's the title of a three-reel comedy, the first of a series starring him.

"Blue Bonnet," a film starring Blanche McFarley, winner of a beauty contest, is being filmed at San Antonio with the backing of San Antonio business men.

Famous Players is to re-issue another series of old pictures including "The Woman God Forgot," "We Can't Have Everything," "The Gilded Lily," "The Woman Thou Gardest Me," "Little Women" and "Barbary Sheep."

400 BOYS AND GIRLS JOIN COUNTY CLUBS

More than 400 farm boys and girls have signified their intentions to take part in pig and clothing clubs this summer. H. J. Ridge, county farm agent, said Monday. Applications are pouring in every day and the most successful year ever experienced is looked for. Mar-ion, Sugar Creek, Spencer, Richland, Bath, Jackson, Auglaize and Shawnee-eps have been organized during the past three months, Ridge says. A total enrollment of more than 300 boys and girls will be seen within the next two weeks, Ridge believes.

100-BARREL GUSHER IN BUCKLAND FIELD

What is reported to be a 100 barrel gusher has been brought in by the West Sprague Oil company on the Louis Bowersock lease, west of Buckland, 18 miles southwest of Lima.

The well is the second producer on the lease. Well No. 1 west of the new one, did not show such heavy indications, but has settled down to a 50-barrel daily production.

Oil men say that the two wells are the largest completed in Auglaize county in many years. A number of test wells and offsets are to go down as a result of the strike.

KINZER AND LANDFAIR RESUME JOBS ON FORCE

Frank Kinzer and Ross Landfair, policemen who left the force last week and who were reinstated Saturday, went on duty Monday, the former as a traffic cop and Landfair at his old job as plainclothesman, paired with Tom Lawlor. Both men said they were glad to be on the force again.

NOW PLAYING

SIGMA THEATRE

Thousands packed the spacious Sigma Theatre all day yesterday and roared with glee at this great comedy—without a doubt the greatest screen production of the year. Delicious side-splitting comedy. Unrivalled satire. Marvelous massive spectacle. Man! Oh! Man! You will have to see it yourself—if it is really impossible to find words to express the wonders of this production.

Here Is a Big Batch of High Hilarity That Will Make the Whole World Laugh!

Keep It Before You

When Isaac Newton, the great mathematician and philosopher, was asked how he worked out a complicated problem, he replied:

"I keep it before me."

Glance through the advertising columns of this paper and in a few minutes you have before you numerous things you want to buy now or at some future date.

Advertising has stabilized prices. The advertiser names his price—one for all. You can know that in paying it you are getting the same deal as the next one.

Keep it before you. You owe it to your pocketbook.

Advertising has helped stabilize quality. Only the best wares are spread before you on these printed pages. The men who advertise here are making public certain claims, on the fulfillment of which depends their commercial success.

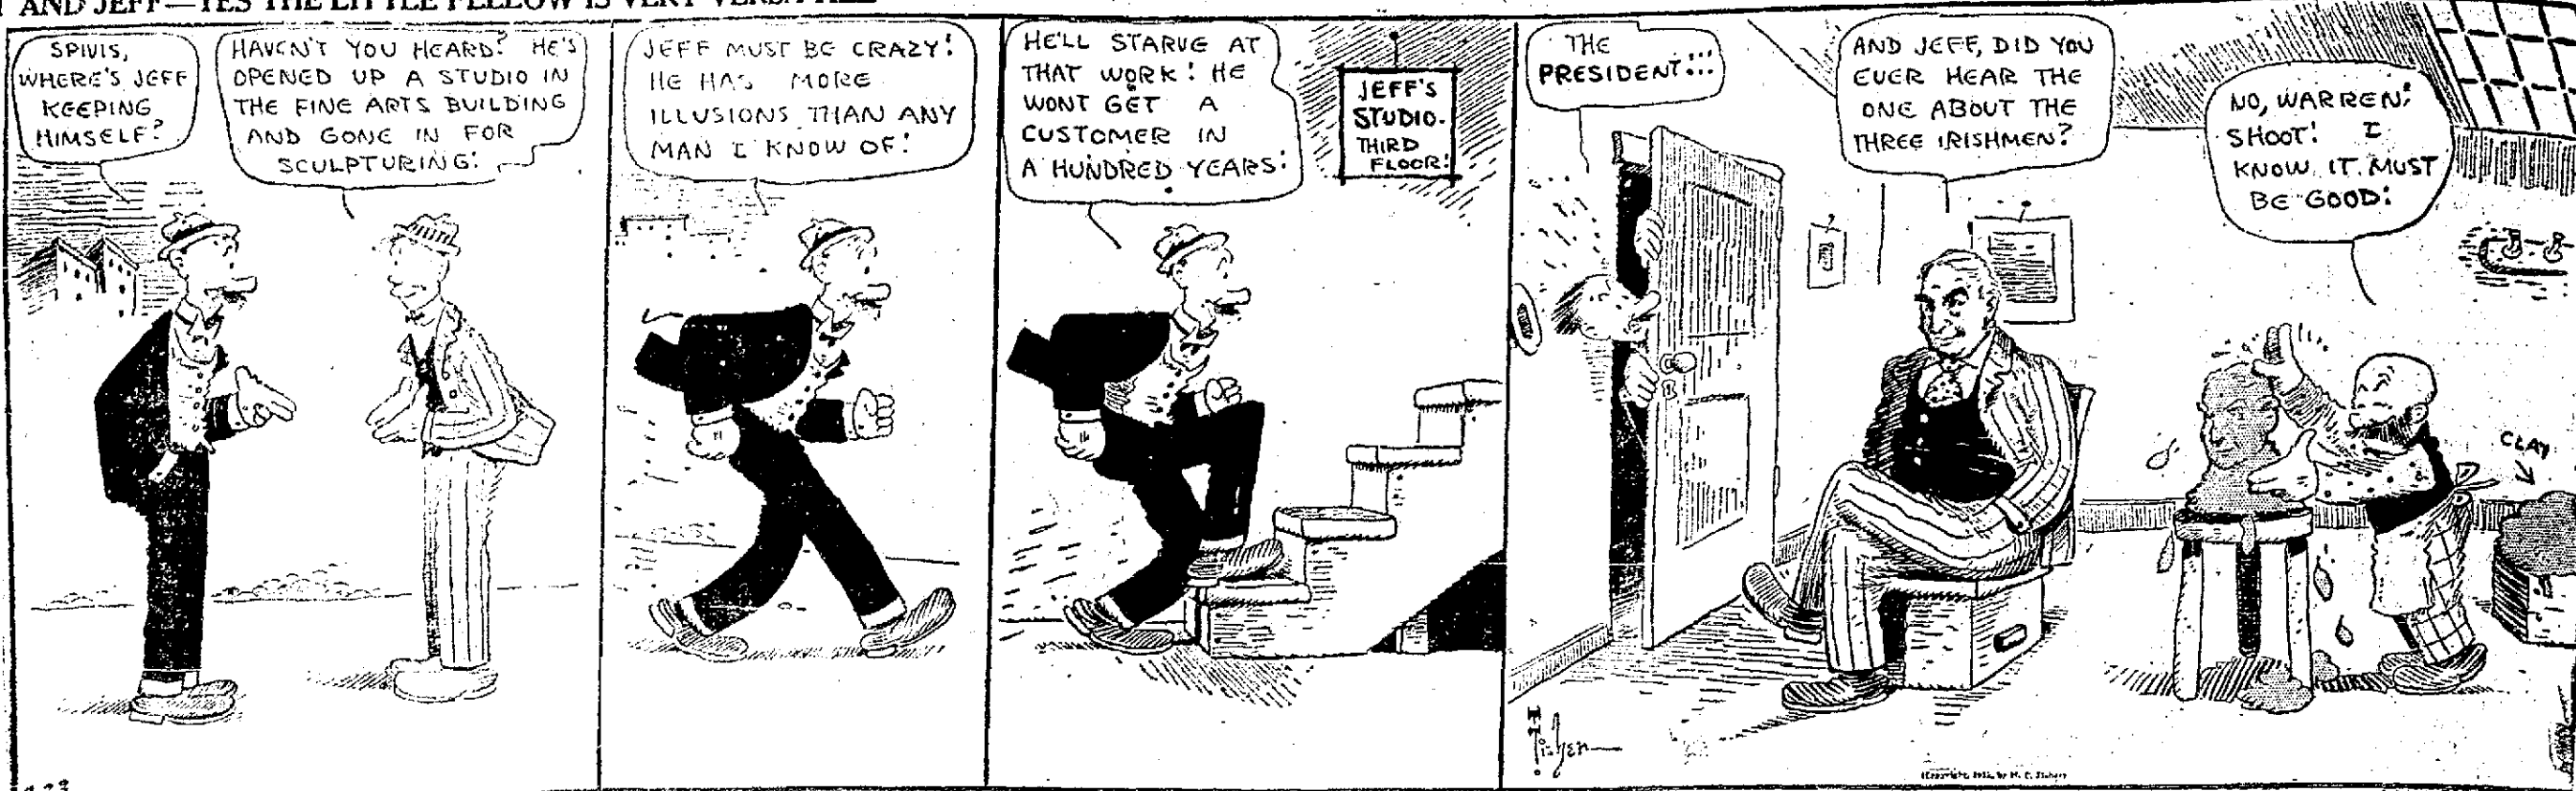

Keep it before you.

Advertising gives you news of the latest and best things made with word as to what they cost and what they will do. It puts before your eyes the pick of the country's market and the selection of the particular kind, shape, size and color that best suits your taste and fits your pocketbook.

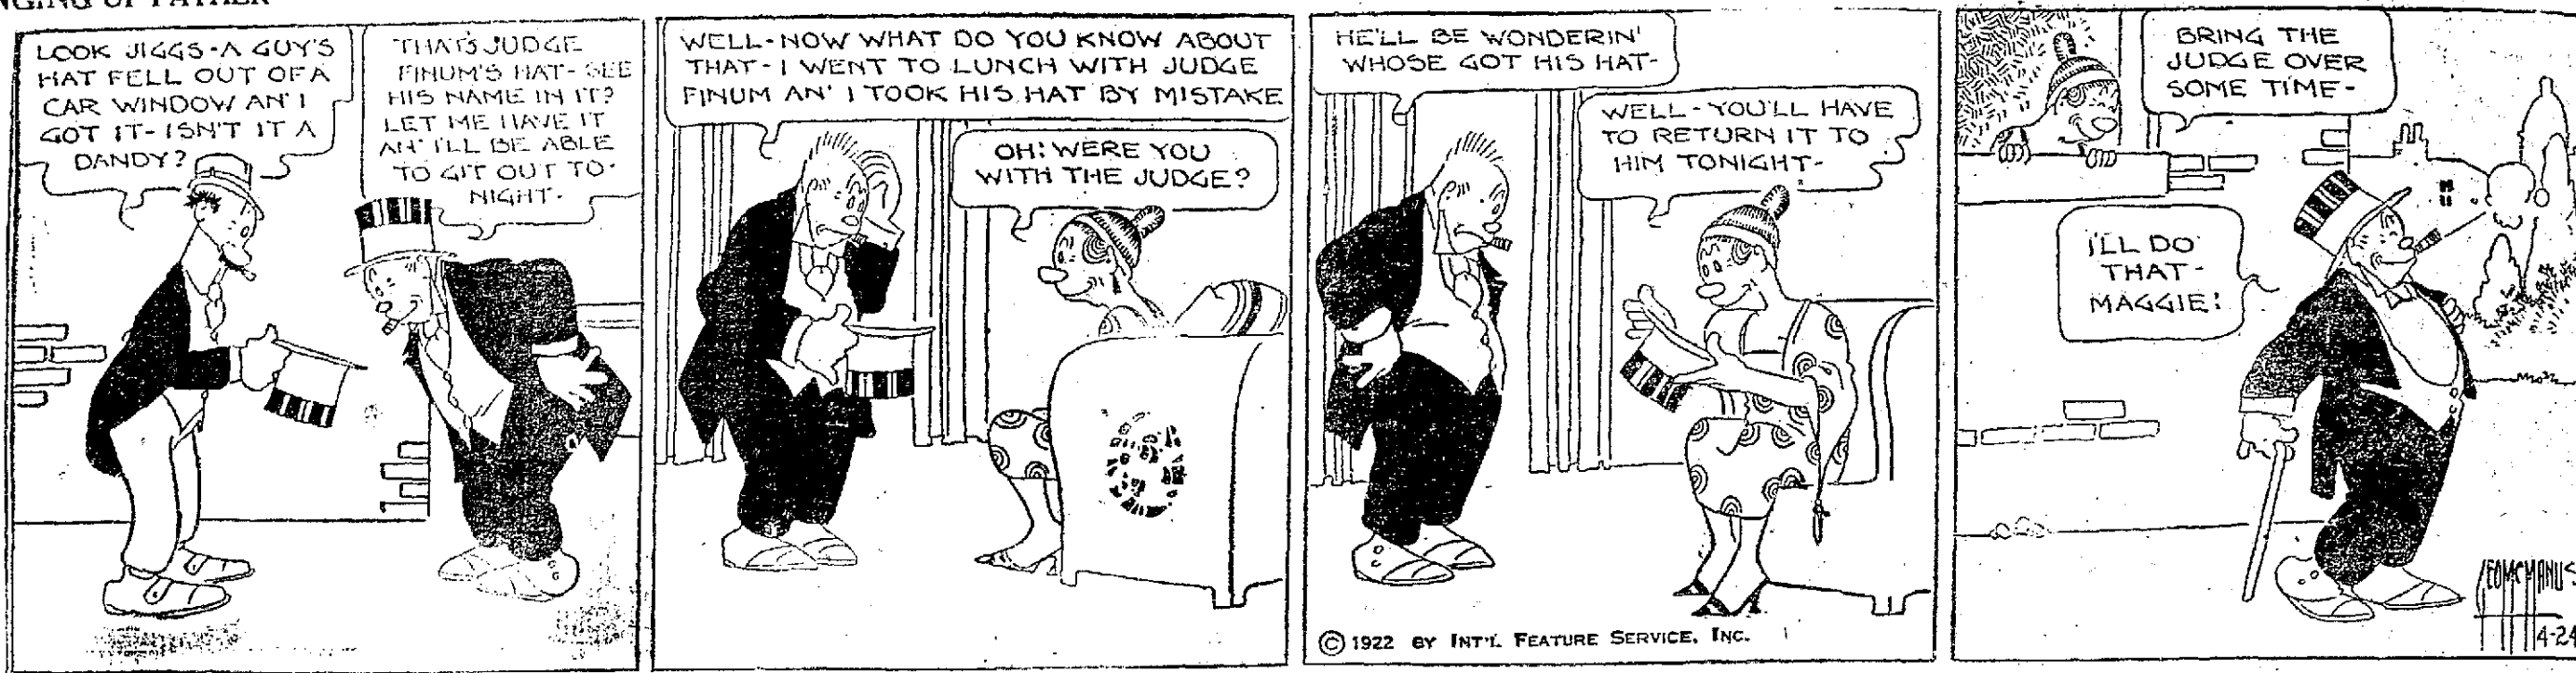

Keep it before you.

BRINGING UP FATHER—

SHORT SHAVINGS

Harry B. Friedman tells of an acquaintance who looked in his cigar case. It was empty. He tried to write with his fountain pen. It was empty, too. An acquaintance observed this with interest. "Let's see your watch," Friedman said. "Has it any works?"

Jess E. Cochran was attracted by the host of an acquaintance who told others at a party he could go thru any newspaper in less than a minute. He held one, outspread in both hands and tried to go thru it first. "It is pleasant to read," reports Cochran. "That he fell over a chair and landed on his head."

R. J. Plate, of the Delsel-Wemmer Co., reports the cat in his office is the laziest in Lima. "It got into a waste basket," he reports, "and instead of jumping out it sat there and meowed until rescued by the night watchman."

Robert W. Parmenter reports he was in a jewelry store when a

young man brought back an engagement ring he had bought. "What's the matter?" asked the salesman. "Didn't it suit?" "It suited," said the young man. "But I didn't."

Children Cry FOR FLETCHER'S CASTORIA

Alkali in Shampoos Bad For Washing Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Mulsified coconut oil shampoo, for this is pure and entirely greaseless. It's very cheap and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

SHERIFF'S SALE
